PAPERS RELATING TO THE SUPPORT OFFERED BY THE PRINCES AND PEOPLES OF INDIA TO HIS MAJESTY IN CONNECTION WITH THE WAR.

No. 1.

MESSAGE FROM THE KING-EMPEROR TO THE PRINCES AND PEOPLES OF INDIA, 8TH SEPTEMBER 1914.

The King-Emperor has been graciously pleased to send the following message to the Princes and Peoples of India :—

TO THE PRINCES AND PEOPLES OF MY INDIAN EMPIRE :

During the past few weeks the peoples of My whole Empire at Home and Overseas have moved with one mind and purpose to confront and overthrow

an unparalleled assault upon the continuity of civilisation and the peace of mankind.

The calamitous conflict is not of My seeking. My voice has been cast throughout on the side of peace. My Ministers earnestly strove to allay the causes of strife and to appease differences with which My Empire was not concerned. Had I stood aside when, in defiance of pledges to which My Empire was a party, the soil of Belgium was violated, and her cities laid desolate, when the very life of the French nation was threatened with extinction, I should have sacrificed My honour and given to destruction the liberties of My Empire and of mankind. I rejoice that every part of the Empire is with me in this decision.

Paramount regard for treaty faith and the pledged word of rulers and peoples is the common heritage of England and of India.

Among the many incidents that have marked the unanimous uprising of the populations of My Empire in defence of its unity and integrity, nothing has moved me more than the passionate devotion to My Throne expressed both by My Indian subjects, and by the Feudatory Princes and the Ruling Chiefs of India, and their prodigal offers of their lives and their resources in the cause of the Realm. Their one-voiced demand to be foremost in the conflict has touched My heart, and has inspired to the highest issues the love and devotion which, as I well know, have ever linked My Indian subjects and Myself. I recall to mind India's gracious message to the British nation of goodwill and fellowship, which greeted My return in February 1912 after the solemn ceremony of My Coronation Durbar at Delhi, and I find in this hour of trial a full harvest and a noble fulfilment of the assurance given by you that the destinies of Great Britain and India are indissolubly linked.

HOUSE OF LORDS.

Wednesday, 9th September 1914.

The LORD PRIVY SEAL and SECRETARY OF STATE FOR INDIA (THE MARQUESS OF CREWE): My Lords, I think it will be of interest to the House if I state what has happened in reference to the wonderful series of offers of assistance and support which have been received from the Indian Empire, and the response which has been made to those offers. In the first instance—although it is, of course, not the first in order of date—I will read to the House a Message which His Majesty has sent to the Princes and Peoples of India.

The King-Emperor's Message is as follows:—

[*See No. 1.*]

I received yesterday a summary of offers of service and money made in India to the Viceroy, of which I think it will be interesting if I convey the general gist to your Lordships. The rulers of the Indian Native States, numbering nearly 700 altogether, have with one accord rallied to the defence of the Empire and offered their personal services and the resources of their States. From among the many Princes and nobles who volunteered for service in the war the Viceroy has chosen the Chiefs of Jodhpur, Bikaner, Kishangarh, Rutlam, Sachin, and Patiala, Sir Pertab Singh (Regent of Jodhpur), the Heir Apparent of Bhopal, and a brother of the Maharaja of Cooch Behar, together with other Princes belonging to noble families. It will, I know be of interest to your Lordships' House, where he has so many personal friends, to know that the veteran Sir Pertab Singh, in spite of his seventy years, refused to be denied the right of serving the King-Emperor in person and is himself going to the front, accompanied by his great nephew, the reigning Maharaja, who is only sixteen years of age and who was brought up at Wellington College and has also, perhaps, become known to some of your Lordships. These have already joined the Expeditionary Force. There are some other Princes, the Chiefs of Jaora and Dholpur, and the Maharaja of Gwalior—also known to many of your Lordships—who, together with the Heir Apparent of Palanpur, were, to their great regret, prevented from quitting their States.

There are twenty-seven States in India that maintain Imperial Service Troops, and immediately on the outbreak of war the services of all of those corps were placed at the disposal of the Viceroy. From twelve of those States the Viceroy has accepted contingents of Infantry, Cavalry, Sappers, and transport, and also the Bikaner Camel Corps; and some of those have already embarked on active service. Further than that, a number of Chiefs, entirely of their own volition, combined to provide a hospital ship to be named "The Loyalty," for the use of the Expeditionary Force. I think I mentioned to the House before that the Maharaja of Mysore had placed a sum of Rs. 50 lakhs at the disposal of the Government for expenditure in connection with the Expeditionary Force. The Viceroy adds that the Maharaja of Gwalior, besides sharing in the expenses of the hospital ship—the idea of which was started by himself and that eminent lady the Begum of Bhopal—has placed large sums of money at the disposal of the Government of India for the purpose of providing a great number of horses as remounts. From Mahomedan Loharu in the Punjab and from two States in Baluchistan there are offers of camels with drivers to be supplied and maintained by the Chiefs and the Sirdars of those States. The Maharaja of Rewa, a distinguished Chief in Central India, has offered his troops, his treasury, and even his private jewellery to be placed at the disposal of His Majesty the King-Emperor. I ought to add that a number of Chiefs, the Maharaja of Kashmir, the Maharaja of Bundi, besides the Maharaja of Gwalior, the Maharaja of Indore, and the Maharaja of Orchha have besides independently subscribed large sums to the Fund of His Royal Highness the Prince of Wales. The Maharaja of Kashmir gave a large subscription to the Indian Fund, and, what will seem to your Lordships rather a new departure in the case of an Indian Prince, presided at a meeting of 20,000 people held at Srinagar and himself delivered a stirring speech, as the result of which large subscriptions were collected. The Maharaja Holkar offers, free of charge, all the horses belonging to his State forces which the Government may find it convenient to accept. The Nizam of Hyderabad has made a similar offer, as also have the Jam of Jamnagar and some of the other Bombay Chiefs. The Viceroy adds that every Chief in the Bombay Presidency has placed the whole of the resources of his State at the disposal of Government.

Then we go further afield. The Mehtar of Chitral—a name which evokes memories of quite a different kind—and the various tribes in the Khyber Agency have sent loyal messages and offers of support to His Excellency's Government. All States, however remote, and some of the quite small States, have expressed their desire to give such assistance as they can. The Viceroy goes on to say, very truly, that last but not least, outside India altogether, generous offers of assistance were received from the Nepal Durbar. The Nepal Government have placed the whole of their military resources at the disposal of the British Government, and the Prime Minister, who is known also I am sure to some of your Lordships because he has been here, offered a sum of Rs. 3 lakhs to the Viceroy for the purchase of machine guns or field equipment for some of the British Gurkha regiments, and also gave large donations from his private purse to the Indian Relief Fund and to the Prince of Wales's Fund. He also offered Rs. 30,000 for the purchase of machine guns for the 4th Gurkha Rifles.

Then we go still further on to the heights. We find that the Dalai Lama has offered 1,000 Tibetan troops for service under the British Government. He also states that innumerable Lamas all over Tibet are offering up prayers for the success of British arms. In fact, there is only one spirit and one movement over the whole of India. The Viceroy has received thousands of telegrams and letters from every quarter expressing loyalty and the desire to assist; and the local administrations have also received a vast number. They have come from every community, from all manner of different associations, religious and political, from all the different creeds, and from countless numbers of individuals offering their resources or their personal services. The Viceroy mentions in his telegram some typical examples: the All-India Moslem League and a number of other Moslem associations in Bengal and Rangoon; the Trustees of the Aligarh College; others from Behar and Calcutta; another from the

Khoja community, who are followers of a gentleman also well known to your Lordships, the Aga Khan; the Punjab Moslem League, the Behar Landholders' Association; the Taluqdars of Oudh; the Association of the Punjab Chiefs; the Provincial Congresses of Madras and of the United Provinces, which are branches of the Indian Congress, which is well known by name at any rate to most of your Lordships; and the Punjab Association representing the orthodox Sikhs, and the Parsee community of Bombay.

There has also been a number of enthusiastic offers of medical help of some of which I hope we shall be able gratefully to avail ourselves. The Zemindars of Madras offered 500 horses at quite an early stage in the proceedings; and the Imperial Indian Relief Fund, which was started, of course quite independently of any fund here, for the relief of distress caused in India itself, has been responded to with great enthusiasm and vigour. There were a certain number of Indian Chiefs in Europe at the time. These have not been any more backward in offering their assistance and help. I find that of those who were in these parts the Maharaja and the Maharani Maji Sahiba of Bharatpur subscribed to the Indian Relief Fund and offered the whole resources of their State to Government. The Raja of Akalkot, a Bombay Chief, offered his personal service; and the Raja of Pudukota placed his entire resources at the disposal of Government. The Gaekwar of Baroda placed at our disposal the whole of his troops and the resources of his State. The son of the Mir of Khairpur, a Mahomedan Ruler in North-West India, offered his personal service. And I find also that of the British Indian residents in this country a great number, young and old, have shown their one desire to offer some form of assistance—personal service, or medical service, or some form of contribution to the Empire—in a most loyal and generous manner.

This afternoon I received a telegram from the Viceroy describing what happened yesterday at the meeting of his Legislative Council at Simla. The Viceroy tells me that in opening the proceedings, the members stood while he conveyed to them the Message from the King—the Message which I read to the House at the commencement of my remarks. The Viceroy made a speech, in which he said that he was sure he was expressing the views of the Council and of the whole of India in assuring His Majesty of unflinching loyalty and devotion. He went on to dwell upon the causes which led up to the war and the wicked and wanton manner in which it had been thrust upon the British Empire, and he explained the whole-hearted efforts which had been made by Sir Edward Grey for the preservation of peace so long as such preservation was possible. He expressed, of course, on his own account also, the warmest gratitude for the attitude of the people of India which has been described in what I have just stated to your Lordships. Then when the Viceroy had concluded, Mr. Chitnavis, representing the Indian community, expressed the gratefulness which they all felt for His Majesty's Message, and asked the Viceroy to assure His Majesty that the whole country was with him in this hour of crisis and would loyally and devotedly do everything possible to ensure the success of the British arms. He then moved the following Resolution—

> "That in view of the great war involving most momentous issues now in progress in Europe into which our August Sovereign has been forced to enter by obligations of honour and duty to preserve the neutrality guaranteed by treaty and the liberties of a friendly State, the members of this Council, as voicing the feeling that animates the whole of the people of India, desire to give expression to their feelings of unswerving loyalty and enthusiastic devotion to their King-Emperor and an assurance of their unflinching support to the British Government. They desire at the same time to express the opinion that the people of India, in addition to the military assistance now being afforded by India to the Empire, would wish to share in the heavy financial burden now imposed by the war on the United Kingdom, and request the Government of India to take this view into consideration and thus to demonstrate the unity of India with the Empire. They request His Excellency the President to be so good as to convey the substance of this Resolution to His Majesty the King-Emperor and His Majesty's Government."

That was seconded by one of the principal Mahomedan leaders, the Raja of Mahmudabad, who made an important speech. It was supported by one of the Punjab Sardars, and was further supported in an eloquent speech—the Viceroy states—by Mr. Malaviya, one of the leading representatives of Indian opinion. It was also supported by a distinguished Mahomedan gentleman, Sir Fazalbhoy Currimbhoy, who speaks for Bombay; by Mr. Ghuznavi, speaking for the Mahomedans of Eastern Bengal, and by Mr. Banerjee, who is well known as an exponent of liberal views in Bengal. Mr. Banerjee, in supporting the Resolution, pointed out that—

> " It was the duty of the Council to focus the sentiments of support and enthusiastic loyalty by which every province of the Empire was animated. They desired to tell the world, the enemies of England and all else whom it might concern, that their loyalty was not lip-deep, but that behind the serried ranks of one of the finest armies of the world were the vast and multitudinous races and peoples of India bound together as one man."

The Viceroy replied, and the Resolution was carried without a single dissentient.

I think, my Lords, that we must all agree that this demonstration of true and heartfelt loyalty in India to the King-Emperor and to the Government is one of the most gratifying facts as the outcome of the present war. As we all know, the devotion and the offers of support from the self-governing Dominions of the Crown have been not less striking. Those Governments are manned by people of our own blood, with countless memories and traditions which centre round these islands. But it is, perhaps, even more striking, certainly not less gratifying, that those who speak for the various races in India—races which represent a civilisation of almost untold antiquity; races which have been remarkable in arms, in arts, and in the science of government—should in so whole-hearted a manner rally round the British Government, and, most of all, round the person of their Emperor at such a moment as this; and I am certain that this House will desire to express, through those of us who are entitled to speak for it, its appreciation of their attitude and our recognition of the part that they have played and are playing.

THE MARQUESS OF LANSDOWNE: My Lords, we have listened to an announcement from the noble Marquess which seemed to us to be one of surpassing interest—an announcement which I venture to say will prove to be of historic importance in the annals of the British Empire. And let me, before I go further, express the admiration with which we listened to the words in which His Majesty the King was pleased to acknowledge the offers which his Government had received from the peoples and Princes of India. I do not think it would have been possible to express in simpler, more dignified, or more appropriate language the feelings which animate us at this moment and which lead us to embark in this great struggle with absolute confidence in the justice of our cause. The noble Marquess spoke of the " wonderful series of offers " which have been received from the peoples of India. It is indeed a wonderful series of offers, and they were doubly appreciated by those of us who have been concerned with Indian affairs as we listened to the noble Marquess while he travelled over, not only the Indian Empire in the more restricted sense of the term, but the confines of the States which adjoin it, and described to us how one and all of them had come forward at this critical moment to assure us of their support in whatever form they were able to provide it.

Quoting from a speech in support of the Resolution passed in the Legislative Council the other day, the noble Marquess spoke of the " multitudinous races and peoples " of India. It is indeed a great thing that those multitudinous races and peoples should have joined in this movement without reference to geographical limits, to religious distinctions, to political divisions, or to differences of race. We know how deep those cleavages are, and how often it is that they separate one part of India acutely from another. But in this case they were not allowed to prevail, and I am sure that the result will produce an immense impression not only upon the people of this country but upon all who, no matter in what part of the world, are anxious spectators of the great struggle which is now proceeding.

The noble Marquess will not think it unnatural on my part if I say that I listened with special interest to that part of his speech in which he gave us an account of the manner in which the ruling Chiefs of India have come forward at this moment. There was a time when I had the honour of enjoying the friendship and intimacy of a number of those Chiefs, and I left India deeply convinced of the sincerity of their desire to bear, whenever the opportunity was offered to them, a useful and honourable part in the affairs of the Empire. Their generosity is proverbial. The word " generosity " is often coupled with the word " princely," and in India, as the noble Marquess knows, we have every reason to be aware of what " princely generosity " means. But in this case, great as that generosity has been, they have given us a great deal more. I well remember the pride which these great Chiefs and rulers took in the Imperial Service Corps instituted in the time of my predecessor, Lord Dufferin; and I know that it was their ambition that those Imperial Service troops should not merely be as they were, extraordinarily efficient and smart on parade, but that they should be given a chance of fighting alongside of our troops in the cause of the Empire. I heard with great interest the noble Marquess's catalogue of the Princes who are to accompany the Indian Force on this campaign—with some of them I have the honour to be acquainted, others are the sons of fathers who were well known to me—and I may perhaps be permitted to echo what he said with regard to one whom I am able to describe as an old personal friend of my own. I mean the Regent of Jodhpur, better known to his intimates as Sir Pertab Singh. I also heard with special satisfaction the noble Marquess's account of the support which he was receiving from the Maharaja of Nepal. We owe a great debt to the Nepal Government, for it is with their assistance and concurrence that we are able to raise those magnificent Gurkhas, of whom I am glad to know a certain number will accompany the Indian Expedition.

THE MARQUESS OF CREWE: Seven battalions.

THE MARQUESS OF LANSDOWNE: I am glad to hear that. I doubt, my Lords, whether every one in this country realises how great a thing it is that these ruling Chiefs who have come forward in this way upon our side are doing, or how important a position they occupy in their own country. I wonder, for example, whether every one realises that the Maharaja of Mysore, to whose munificent gift the noble Marquess referred, rules over a population which exceeds in numbers the whole of the population of Sweden. I wonder whether every one calls to mind that the Maharaja of Gwalior has more subjects than the King of Denmark; or that the Nizam of Hyderabad governs a people twice as numerous as the people of the Netherlands and three times as numerous as the people of Ireland. It is no small thing that these rulers, standing where they do in our Indian system, should have come forward without exception and given such practical proof of their desire to help us. I venture on the part of those who sit on this side of the House to congratulate the noble Marquess on the manner in which the India Office has been supported at this critical time, and I add to that our congratulations to the Viceroy to whom at a moment when he must have many sad preoccupations, the magnificent response of the people of India must bring consolation and encouragement. I am sure it will be the desire of the House, in whatever way may be fitting, that our cordial thanks should be conveyed to the people of India and to the Indian Chiefs who have stood by us in so conspicuous a manner.

HOUSE OF COMMONS.

Wednesday, 9th September 1914.

Sir G. SCOTT ROBERTSON asked the Under-Secretary of State for India whether he could make any statement as to offers of help made in India in connection with the war?

The UNDER-SECRETARY OF STATE FOR INDIA (Mr. Charles Roberts): In answer to the question I ask the House to allow me to read a telegram of very considerable length from the Viceroy to the Secretary of State, which really

partakes rather of the nature of a statement than strictly an answer to a question, but in view of the importance of the matter, I hope the House will allow me to read it.

The Secretary of State for India has received the following telegram from the Viceroy, dated 8th September 1914 :—

> Following is a summary of offers of service, money, etc., made in India to the Viceroy. The Rulers of the Native States in India, who number nearly seven hundred in all, have with one accord rallied to the defence of the Empire and offered their personal services and the resources of their States for the War. From among the many Princes and Nobles who have volunteered for active service, the Viceroy has selected the Chiefs of Jodhpur, Bikaner, Kishangarh, Rutlam, Sachin, and Patiala, Sir Partab Singh, Regent of Jodhpur, the Heir Apparent of Bhopal and a brother of the Maharaja of Cooch Bihar, together with other cadets of noble families. The Veteran Sir Partab would not be denied his right to serve the King-Emperor in spite of his seventy years, and his nephew, the Maharaja, who is but sixteen years old, goes with him.
>
> All these have, with the Commander-in-Chief's approval, already joined the Expeditionary Forces. The Maharaja of Gwalior and the Chiefs of Jaora and Dholpur, together with the Heir Apparent of Palanpur were, to their great regret, prevented from leaving their States. Twenty-seven of the larger States in India maintain Imperial Service Troops, and the services of every corps were immediately placed at the disposal of the Government of India on the outbreak of war. The Viceroy has accepted from twelve States contingents of Cavalry, Infantry, Sappers, and Transport, besides a Camel Corps from Bikaner, and most of them have already embarked. As particular instances of generosity and eager loyalty of the Chiefs the following may be quoted : Various Darbars have combined together to provide a hospital ship, to be called " The Loyalty," for the use of the Expeditionary Forces. The Maharaja of Mysore has placed Rs. 50 lakhs at the disposal of the Government of India for expenditure in connection with the Expeditionary Force.

The Chief of Gwalior, in addition to sharing in the expenses of the hospital ship, the idea of which was originated with himself and the Begum of Bhopal, has offered to place large sums of money at the disposal of the Government of India and to provide thousands of horses as remounts. From Loharu in the Punjab and Las Bela and Kalat in Baluchistan come offers of camels with drivers, to be supplied and maintained by the Chiefs and Sardars. Several Chiefs have offered to raise additional troops for military service should they be required, and donations to the Indian Relief Fund have poured in from all States. The Maharaja of Rewa has offered his troops, his treasury, and even his private jewellery for the service of the King-Emperor. In addition to contributions to the Indian Fund some Chiefs, namely, those of Kashmir, Bundi, Orchha, and Gwalior and Indore have also given large sums to the Prince of Wales' Fund.

The Maharaja of Kashmir, not content with subscribing himself to the Indian Fund, presided at a meeting of 20,000 people held recently at Srinagar and delivered a stirring speech, in response to which large subscriptions were collected.

Maharaja Holkar offers, free of charge, all horses in his State Army which may be suitable for Government purposes. Horses also offered by Nizam's Government, by Jamnagar and other Bombay States. Every Chief in the Bombay Presidency has placed the resources of his State at the disposal of Government, and all have made contributions to the Relief Fund.

Loyal messages and offers also received from Mehtar of Chitral and tribes of Khyber Agency as well as Khyber Rifles.

Letters have been received from the most remote States in India, all marked by deep sincerity of desire to render some assistance, however humble, to the British Government in its hour of need.

Last, but not least, from beyond the borders of India have been received generous offers of assistance from the Nepal Durbar; the military resources of the State have been placed at the disposal of the British Government, and the Prime Minister has offered a sum of Rs. 3 lakhs to the Viceroy for the purchase of machine guns or field equipment for British Gurkha Regiments proceeding overseas, in addition to large donations from his private purse to the Prince of Wales' Fund and the Imperial Indian Relief Fund. To the 4th Gurkha Rifles, of which the Prime Minister is honorary Colonel, the Prime Minister has offered Rs. 30,000 for the purchase of machine guns in the event of their going on service.

The Dalai Lama of Tibet has offered 1,000 Tibetan troops for service under the British Government. His Holiness also states that Lamas innumerable throughout length and breadth of Tibet are offering prayers for success of British Army and for happiness of souls of all victims of war.*

The same spirit has prevailed throughout British India. Hundreds of telegrams and letters received by Viceroy expressing loyalty and desire to serve Government either in the field or by co-operation in India. Many hundreds also received by local administrations. They come from communities and associations, religious, political and social, of all classes and creeds, also from individuals offering their resources or asking for opportunity to prove loyalty by personal service. Following may be mentioned as typical examples :—

The All-India Moslem League, the Bengal Presidency Moselm League, the Moslem Association of Rangoon, the Trustees of the Aligarh College, the Behar Provincial Moslem League, the Central National Mahomedan Association of Calcutta, the Khoja Community and other followers of Aga Khan, the Punjab Moslem League, Mahomedans of Eastern Bengal, Citizens of Calcutta, Madras, Rangoon, and many other cities, Behar Landholders' Association, Madras Provincial Congress, Taluqdars of Oudh, Punjab Chiefs' Association, United Provinces Provincial Congress, Hindus of the Punjab, Chief Khalsa Diwan representing orthodox Sikhs, Borah Community of Bombay, Parsee Community of Bombay.

Indian Musalmans offer field hospital that was sent to Turkey during Balkan War; Bengalee students offer enthusiastic services for an ambulance corps, and there were many other offers of medical aid; Zemindars of Madras† have offered 300 horses, and among other practical steps taken to assist Government may be noted the holding of meetings to allay panic, keep down prices and maintain public confidence and credit. Generous contributions have poured in from all quarters to Imperial Indian Relief Fund.

In addition I ought to mention that similar offers have reached the Secretary of State from Chiefs who happen to be at present in Europe. The Gaekwar of Baroda and the Maharaja of Bharatpur, to mention two only, have placed the whole resources of their States at the disposal of His Majesty's Government. The Indian community in England, including the Indian students, have made loyal offers of services. I feel confident that the House and the country will feel deep appreciation of this magnificent demonstration of the loyalty with which the Princes and Peoples of India have identified themselves with the cause of the Empire.

Mr. BONAR LAW : In view of the very great importance of this message, may I ask the Prime Minister—although I feel sure he has done it—whether the Government are taking every possible step to have the message circulated throughout the whole Empire?

The PRIME MINISTER : Yes; that is being done.

* The Political Resident at Aden has since reported that the Arab Chiefs in the Hinterland of Aden, from the highest to the lowest, have offered their personal services and resources.

† The Governor of Madras has since reported that the Madras War Fund is prepared to supply, in addition to horses, a fully equipped hospital ship, named "Madras" for the Indian Expeditionary Force, with 300 beds.

Telegraphic—From the Viceroy to the Secretary of State for India, dated 9th September 1914.

In opening the proceedings of the Legislative Council, Viceroy began by asking the members to stand while he read them a message from the King. [*See* No. 1.] Viceroy said he thought he was voicing views of Council, and of whole of India, in saying they were profoundly grateful to His Majesty for gracious and stirring message, and can only assure His Majesty of unflinching loyalty and devotion in this time of crisis and emergency. Subsequently, in explaining the causes leading up to the war, the Viceroy emphasised the wicked and wanton manner in which it had been thrust upon the British Empire, and showed how the whole-hearted efforts made for peace by Sir Edward Grey had been rendered futile by the absolute disregard of Germany for international obligations in the matter of the neutrality of Belgium, and the infamous proposals of Germany to buy British neutrality at the expense of the independence of Belgium, and the integrity of France and her possessions. He drew attention to the admission by the German Chancellor that Germany had done a grievous wrong to Belgium. He said: "War is a terrible and horrible thing, but there is a worse thing than war, and that is national dishonour and failure of a nation to keep its engagements."

He expressed profound satisfaction that the attitude of the British Government had been so thoroughly appreciated in India and met with such warm support. The valuable offers of military assistance from Ruling Chiefs and countless offers of personal service and material help from British India had touched him deeply and given one more proof of the deep loyalty of India. The fact that the Government of India were in a position to help the mother country by the despatch of such a large proportion of their armed forces was a supreme mark of his absolute confidence in the fidelity of troops and loyalty of India. He trusted this might be fully recognised in India and abroad. Sacrifices would have to be made, but people of India, standing shoulder to shoulder, would shrink from no sacrifice, but do all in their power to maintain internal order and secure triumph of arms of King-Emperor.

Countless loyal meetings and warm response to appeal for relief funds filled him with satisfaction and confirmed impression that Government would be supported by the determination, courage, and endurance of the whole country. Viceroy added following words: "It was moreover with confidence and pride that I was able to offer to His Majesty the first and largest military force of British and Indian troops for service in Europe that has ever left the shores of India. I am confident that the honour of this land and of the British Empire may be safely entrusted to our brave soldiers, and that they will acquit themselves nobly and ever maintain their high traditions of military chivalry and courage. To the people of India I would say at this time, let us display to the world an attitude of unity, of self-sacrifice and of unswerving confidence under all circumstances in the justice of our cause and in the assurance that God will defend the right." Subsequently he dealt with question of emigration to British colonies, concluding with the following words: "I appeal to the Indian public to view this question in no narrow light. India has her rights but equally have the Colonies. Should it be decided to negotiate with the Colonial Governments, I am confident that they with their strong Imperial instincts will meet us in no mean nor niggardly spirits, provided that we on our side show our readiness to meet them half way. The fact that in a few week's time our splendid Indian soldiers may be fighting side by side and shoulder to shoulder with our Colonial fellow-subjects against the common enemy is a guarantee of fair and generous treatment on both sides in a controversy of this nature.

Sir G. Chitnavis, on behalf of Council, expressed their respectful gratitude for His Majesty's kind and gracious message and asked Viceroy to assure His Majesty that in this hour of crisis whole country was with him and would loyally and devotedly do everything possible to ensure success of British arms. He then obtained leave to move following resolution: "That in view of the

great war involving most momentous issues now in progress in Europe into which our August Sovereign has been forced to enter by obligations of honour and duty to preserve the neutrality guaranteed by treaty and the liberties of a friendly State, the members of this Council as voicing the feeling that animates the whole of the people of India, desire to give expression to their feelings of unswerving loyalty and enthusiastic devotion to their King-Emperor and an assurance of their unflinching support to the British Government. They desire at the same time to express the opinion that the people of India in addition to the Military assistance now being afforded by India to the Empire would wish to share in the heavy financial burden now imposed by the war on the United Kingdom, and request the Government of India to take this view into consideration and thus to demonstrate the unity of India with the Empire. They request His Excellency the President to be so good as to convey the substance of this resolution to His Majesty the King-Emperor and His Majesty's Government."

He commenced with a comparison between England's present attitude and that taken up by her during the great Napoleonic wars, pointing out how in the present conflict, as then undeterred by fear of consequences or claims of self-interest, she stands forth as the protector of weaker nations against the brute force of militarism. He then expressed keen appreciation felt by all Indians of Viceroy's prompt action in assuring the King of India's whole-hearted loyalty, thus acting as a true and trusted representative of Indian people. Though there may be internal difficulties and differences of opinion within the English Empire, in face of outside danger all rally round England to support Empire of which all are proud to be citizens. Indians of all ranks, religions, and opinions, hope for England's victory with loyal sentiment based on gratitude, contentment, and confidence in future.

Maintenance of British rule is an essential condition of moral and material progress of country, hence all rejoice that Indian fighting races will take the field in Europe alongside English troops. Splendid Indian Army under British guidance may be trusted to render a good account of itself under all circumstances. Further and nobler reason for India's support of British cause is complete confidence in the justice of it as proved by published correspondence. India desires deeply to prove herself worthy of England's confidence by action and sacrifice as well as by words. This sentiment expressed at crowded meetings throughout India must be voiced here in showing clearly to Viceroy that all are and will be ready to bear their share in the financial burden imposed by war. He moves the resolution with confidence that he will have the full support of whole Council, who will all wish to assist in continuing and completing the noble mission of the Empire.

Raja of Mahmudabad, in seconding the resolution, stated that it represented the very essence of Indian public opinion, and that Indians are only too proud to bear their share of the Imperial burden. Entire resources of India in men and money should be at England's disposal. Expressed deep gratitude on behalf of India for Viceroy's assistance in getting Indian troops despatched to Europe which has made India justly feel proud of her position in the Empire.

Sardar Daljit Singh, Punjab, in supporting resolution, emphasised righteousness of England's cause. India's determination to assist in defence of Empire is due not merely to sense of duty and gratitude but also to feeling that her interests are indissolubly connected with those of England. Immense satisfaction felt throughout India at the honour done to India by sending her troops to England But England needs money as well as men, and this will be given ungrudgingly by all.

Following passages occurred in an eloquent speech by Mr. Malaviya : India recognises her duty at this present moment and, God willing, will loyally and manfully discharge that duty, that no sacrifice of men or money will be grudged in order that the British arms should triumph, in order that the success of the British arms should establish the triumph of right over might, of civilisation over the military barbarism of Germany, of ordered freedom over military slavery, and of everything that men have held dear in the last hundred years

over all that seems to be ugly and despicable at the present moment in the doings that are going on in Belgium and other countries. The appeal that England made in days gone by she has made now in respect of calling upon Englishmen to do their duty, and in this hour of crisis it is her proud privilege to call upon all the citizens of the British Empire to rise as one man and manfully to discharge the duties which the situation has imposed upon them. My Lord, India will humbly and dutifully respond to that call.

Sir Fazalbhoy Currimbhoy, on behalf of Bombay Presidency, said that resolution embodied the feeling of the whole country which desired to prove unity of Empire by sacrificing life and property in support of England. Crisis has helped Indians to realise how dear British rule is to them, and they regard the fact of Indian troops fighting with British in Europe as a great pledge of equal citizenship in Empire. Resolution will be hailed by all India with proud approval.

Mr. Ghuznavi, speaking for Mahomedans of Eastern Bengal, pointed out that the war had demonstrated to the whole world how truly united was the Empire.

Mr. Banerjee, in supporting the resolution, pointed out that it was duty of Council to focus sentiments of enthusiastic loyalty and support which animated every province of the Empire, they desired to tell the world, the enemies of England and all else whom it might concern that their loyalty was not lip-deep but behind the serried ranks of one of the finest armies of the world were the vast and multitudinous races and peoples of India bound together as one man.

Every one of the non-official members present also spoke in favour of the resolution, and the proceedings were marked by a genuine ring of quiet enthusiasm.

In replying on the debate the Viceroy expressed appreciation of remarkable demonstration of loyalty and of unity with the Empire; he fully recognised that the views expressed by Honourable Members represented those of the whole country. India had gladly given her sons to fight the common foe side by side with the sons of Great Britain, Canada, Australia, and New Zealand, and might with confidence and pride look forward to their achievements on the battlefield being worthy of the best and highest traditions of that country. That India had been in a position to send a military force of over 70,000 combatants to fight for the Empire was a legitimate source of pride and satisfaction to her. Viceroy mentioned the names of Ruling Chiefs whose offers to go to front had been accepted, and added that Nepal had generously placed forces at the disposal of Government, while most friendly assurances had been received from the Amir of Afghanistan. That Honourable Members should also desire to share the financial burden was natural and legitimate aspiration with which Government of India was in complete sympathy so far as legitimately possible, having due regard to interests of Indian tax-payer. India bound to suffer financially through falling off of customs and railway receipts. She could ordinarily have asked Home Government to bear whole cost of Expeditionary Force and thus effected counter savings, but Government had felt this would not be in accord with wishes of the people, and that opinion was confirmed by the resolution moved and speeches made. He accepted resolution on behalf of Government who would now recommend that India should accept such portion of cost of force as would have fallen upon India had troops continued in the country; amount might be roughly estimated at one million sterling up to end of financial year. Viceroy then referred to splendid offer of 50 lakhs by Mysore which would be placed at disposal of His Majesty's Government as additional contribution. There was nothing like comradeship in arms and joint participation in dangers and hardships of war to level distinctions, inspire mutual respect, and foster friendships, and Viceroy added: "I cannot help feeling that as a consequence better relations will be promoted amongst the component parts of the British Empire, many misunderstandings will be removed, and outstanding grievances will be settled in an amicable and generous manner. In this sense out of evil good may come to India, and this is the desire of us all."

HOUSE OF LORDS.

Wednesday, 16th September 1914.

The LORD PRIVY SEAL AND SECRETARY OF STATE FOR INDIA (The MARQUESS OF CREWE) moved a resolution to the effect that the ordinary pay and other ordinary charges of any troops despatched from India to the seat of war, as well as the ordinary charges of any vessels belonging to the Government of India that might be employed in the expedition which would have been charged upon the resources of India if such troops or vessels had remained in that country or seas adjacent, should continue to be so chargeable, provided that if it should be necessary to replace the troops or vessels so withdrawn by other vessels or forces, then the expense of raising, maintaining, and providing such vessels and forces should be repaid by the Imperial Government This resolution had, he said, to be passed by both Houses in consequence of the provision of the Government of India Act, 1858. Continuing the noble Marquess said I need not add anything to what I said a short time ago as to the pride we all feel at the Indian Forces fighting side by side with British soldiers and the soldiers of the self -governing Dominions in this mighty conflict. The pride with which this announcement was received by both Houses of Parliament was shared by the whole country, as was shown by what appeared in the Press next day. It is a most remarkable and most memorable fact. And the reception of the news in India that Indian troops were coming here was for one thing, I venture to hope, a splendid tribute to the justice of our rule there, and is also an evidence of how high the heart of India beats in sympathy with us in this great struggle in which we are engaged. (Cheers.) India desires to play her part, not merely by sending troops, but also she has taken the view that at any rate she shall not in any sense profit or make any sort of saving through the absence of these troops from India, and the consequent absence of the necessity of paying them. The precedents on this subject are very various. Sometimes India has been asked to pay a large amount in respect of troops sent to various parts of the world In some other cases the whole charge has been undertaken by this country. Both in India and here the proposal is regarded as a thoroughly fair one, considering the magnitude of the struggle in which we are engaged. It was held by a Commission, which sat some 14 years ago, that a war in

Europe could not of itself be taken as involving the direct interest of India, but for a war such as this there is no precedent, and no argument of a merely technical kind can be made. Therefore, as we stand at present, and speaking without prejudice of what may happen in the future as to the duration of the war or a number of other factors about which it is impossible to express any opinion at present, I think this arrangement is a reasonable one both from the Indian and the British point of view, and I trust therefore that your Lordships will be able to assent to the resolution.

The EARL CURZON OF KEDLESTON: Perhaps as one who was connected for some years with the Government of India, I may be allowed to say a word on the statement which has just been made by the noble Marquess, the Leader of the House. I am the more anxious to do so because on the two previous occasions upon which the despatch of these Indian contingents has been mentioned, I was unfortunately absent elsewhere. I should like to take this opportunity of joining the noble Marquess in a tribute of admiration for the splendid spirit of loyalty which has been shown by the Dominions and all classes and creeds in India, and further to offer my congratulations to the Viceroy in particular, and the Government of India, for the substantial and magnificent offer of assistance which they have been able to make to His Majesty's Government. From my own experience I can bear out what the noble Marquess has said. During the last ten days that I have been engaged elsewhere no subject has raised more enthusiasm among the thousands of people I have seen assembled than the splendid offer of the Indian contingent. (Cheers.) Now the noble Marquess takes us a step further. He makes a motion to the House which is to the effect that the ordinary charges of these troops should continue to be borne by the Indian Government—or, to use his own phrase, that the Indian Government should derive no profit from their patriotism in this respect. In ordinary circumstances I might have felt some doubt about such a proposal, but there may have been fluctuations in our policy in regard to this matter, fluctuations, I am bound to say in some cases not altogether creditable to ourselves or to our standard of chivalry and honour. But these circumstances have largely changed in recent years, and broadly speaking, the principle which is now observed, I think the noble Marquess will agree, is when the Indian troops are employed outside that country the expenditure shall not fall on them. That was certainly the case with regard to the expedition which I had the honour to despatch from India in 1900, to the relief of the Legations in Peking. But the noble Marquess has told us to-day that this is an exceptional case. This is the case where the troops from India are spontaneously taking part in war which may be held to involve the interests of India as being included in the whole Empire. I conclude that the proposal of the noble Marquess is one that has been made to him by the Government of India. I think it is one which your Lordships can well accept.

No. 7.

House of Commons, Wednesday, 16th September, 1914.

The PRIME MINISTER (Mr. Asquith): I beg to move, "That His Majesty having directed a military force, consisting of British and Indian troops, charged upon the revenues of India, to be despatched to Europe for service in the War in which this country is engaged, this House consents that the ordinary pay and other ordinary charges of any troops so despatched, as well as the ordinary charges of any vessels belonging to the Government of India that may be employed in this expedition which would have been charged upon the resources of India if such troops or vessels had remained in that country or seas adjacent, shall continue to be so chargeable, provided that, if it shall be necessary to replace the troops or vessels so withdrawn by other vessels or forces, then the expense of raising, maintaining, and providing such vessels and forces shall be repaid out of any moneys which may be provided by Parliament for the purposes of the said expedition."

The Motion which stands in my name, and which I propose now to move, is one which I am quite certain will be received with complete assent and

gratitude in every quarter of the House. I do not think that in all the moving exhibitions of national and Imperial patriotism which the War has evoked there is any which has more touched, and rightly touched, the feelings of this House and the country, than the message sent by the Viceroy of India announcing the magnificent response which the Princes and peoples of that country have made to our need. In consequence of the provisions of Section 55 of the Government of India Act, 1858, it is not constitutionally right or proper to charge upon the revenues of India, except in the case of actual invasion or of sudden and unforeseen emergency, the cost of troops that may be sent outside that country. The assent of both Houses of Parliament is needed before any such charge can be imposed upon the revenues of India. The assistance of the Indian Army under Imperial exigencies has been more than once—indeed, several times since the passing of that Act—offered by India and accepted by ourselves. I will not go into the precedents; it is not necessary to do so.

In most of those cases the whole cost of the charge has been met, as I am sure we would willingly meet it in this case, out of the revenues of the United Kingdom. But when this matter came up, as it did last week, before the Legislative Council of the Viceroy of India, one of the unofficial Indian members moved a resolution to the effect that India would desire, in the present emergency, that she should be allowed not only to send her troops, but to contribute the cost of their maintenance and pay, and the Viceroy, on behalf of the Government of India—and I am sure with the assent and sympathy not only of this House and the people of this country, but of the whole people of the British Empire—accepted that offer. The result is that, through this patriotic initiative, not in any sense dictated or inspired by the Government, but proceeding from an unofficial member of the Viceroy's Council, these splendid British and Indian troops which are now already upon their way, and which we believe will afford to us and to the Empire at large most effective assistance in the righteous struggle in which we are engaged, will be sent, as far as their ordinary charges are concerned, at the expense of the Government and people of India. The Motion I have to make is of a purely formal character. It is necessary in order to comply with the requirements of the Act of Parliament. I am sure we should not be giving expression to what everyone of us feels if we did not couple with its acceptance an acknowledgment, sincere and heartfelt, of the spontaneous and splendid assistance which our great Dependency of India is giving us.

Mr. BONAR LAW: I am glad to have the privilege of seconding the Resolution which has been moved. Since the War broke out nothing, as the Prime Minister has said—not even, I think, the heroic conduct of our own soldiers on the field of battle—has moved the people of this country more deeply than the spontaneous and enthusiastic outburst of loyalty to their Emperor and patriotism of the Empire of which we had an account in the message of the Viceroy given the other day. The circumstances under which this Resolution is necessary are another proof of the reality and of the value of that assistance. Previously when Indian troops, as the Prime Minister has pointed out, have been used out of India the Government of India has looked with a jealous eye in order to see that no part of the financial burden would fall on the people of India. Now the Indian Government, representing and inspired by the Indian people, are not only sending their sons to risk their lives at the side of our own soldiers, by whom they will be proudly welcomed as comrades, but are insisting on bearing a share of the burden of the expense which is involved.

I ventured to say the other day at the Guildhall that the moral forces which our enemies not only despised but affront would prove in the long run stronger than the material forces on which alone they rely. It is on moral forces that we rely to-day. The generous aid which is coming to us from the self-governing Dominions in every part of the Empire is coming of their own free will. It could not be demanded by us, and it could not be enforced by us. This assistance from India also is coming not from force, but from goodwill, and I believe that it is coming because, on the whole, everyone who leaves this country to take part in the government of India, from the Viceroy to the humblest official, is inspired by the tradition that it is his duty not to exploit India for the benefit of this country, but to rule it for the good of the people of India.

We have made mistakes, but on the whole we have succeeded, and it is because, in the main, the people of India recognise that that is the spirit in which the Government is carried on, that we have received so generously their assistance in our hour of need.

8. The spirit must have been made in the contractor's own distillery in India.

10. The contractor will be bound to provide all plant, viz., vats, pumps, pipes, etc., required for the storing, reducing and issue of liquor or, if there be any such plant belonging to the present contractor in the warehouses, he will be required to purchase such plant which is in use and in serviceable condition at a valuation made, if necessary, in accordance with paragraph 18.

11. About sixty new wooden vats, varying in capacity from 200 to 1,000 gallons, more or less, must be installed in certain warehouses by 1st March 1916, and facilities will be granted for the erection of the vats before that date. The contractor is also bound to provide such additional vats, pumps, or other appliances as the Excise Commissioner may consider necessary for the proper equipment of the warehouse or distillery.

12. Water for reduction purposes is available at or near each warehouse, but the cost of supplying and maintaining the pumps or manual labour required and of filtration, etc., must be borne by the contractor.

13. The contractor shall be bound to maintain at each warehouse such minimum daily stocks as may, from time to time, be fixed by the Commissioner of Excise.

14. The contractor must keep an agent at each warehouse and shall be responsible for reducing spirit to issue strengths and for all wastages and shrinkages.

18. Any valuations required will be made by two valuers -one to be selected by the Commissioner of Excise, and the other by the existing contractors. In the event of differences in the valuations, the matter will be referred to Government, whose decision will be final.

19. The Commissioner is not bound to accept the lowest or any tender.

20. Tenders, enclosed in sealed covers and marked "Bengal Spirit Contracts," will be received up to the 28th February 1915 by the Commissioner of Excise, Calcutta, to whom application in writing only may be made for further particulars.

GOVERNMENT OF BENGAL.

BENGAL LEGISLATIVE COUNCIL.

NOTIFICATION.

No. 1712L.—The 17th November, 1914.—His Excellency the Governor having been pleased to order, under rule 31 (*f*) of the Bengal Legislative Rules, 1912, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and Statement of Objects and Reasons are accordingly hereby published for general information. It is proposed to introduce the Bill and refer it to Select Committee at the meeting of the Bengal Legislative Council to be held on Monday, the 14th December, 1914 :—

The Bengal Embankment (Sundarbans) Bill, 1914.

A

BILL

to extend to the Sundarbans certain enactments relating to Embankments.

WHEREAS it is expedient to extend to the Sundarbans certain enactments relating to Embankments;

And whereas the sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

Short title. 1. This Act may be called the Bengal Embankment (Sundarbans) Act, 1914.

Extension of enactments to the Sundarbans. 2. The following enactments are hereby extended to the Sundarbans, as excluded under section 1 of the Bengal Embankment Act, 1882, namely:— Ben. Act II of 1882.

(1) the following portions of the Bengal Embankment Act, 1873, namely, section 12, section 13, the proviso to section 21, sections 26, 27, 28 and 29, and Schedules B, C and D, subject to the amendments made in the said sections 12, 21 and 26 by the second paragraph of section 2 of the Bengal Embankment Act, 1882; and Ben. Act VI of 1873. Ben Act II of 1882.

(2) the Bengal Embankment Act, 1882, except such portions thereof as have been repealed. Ben. Act II of 1882.

Repeal. 3. (1) The Bengal Embankment Acts, 1855 and 1866, are hereby repealed. Act XXXII of 1855. Ben. Act VII of 1866.

(2) The words and figures "the Sundarbans, as defined under the provisions of clause 2, section 16, Regulation 3 of 1828, and", in section 1 of the Bengal Embankment Act, 1882, are hereby repealed. Ben Act II of 1882.

STATEMENT OF OBJECTS AND REASONS.

THE Embankment Acts now in force in the Sundarbans are Act XXXII of 1855 and Bengal Act VII of 1866, which contain no provision for controlling the erection of private embankments. Cultivators in that tract have accordingly been in the habit of erecting such embankments (with the object of excluding the tidal spill) in areas in which the land has not been raised, by the natural deposit of silt, to the mean level of the high water of the spring and neap tides, and great deterioration of the tidal channels, as well as of the natural drainage of the country, has resulted.

2. It is therefore proposed to repeal those Acts in the Sundarbans, and to extend thereto the Bengal Embankment Act, 1882 (Ben. Act II of 1882), and the extant portions of the Bengal Embankment Act, 1873 (Ben. Act VI of 1873), so as to bring the Embankment law of the Sundarbans into line with that of the rest of Bengal. The application of the Acts of 1882 and 1873 was excluded by section 1 of each of those Acts from the Sundarbans area as determined by a survey under clause *Second* of section XIII of Regulation III of 1828, and it is intended by this Bill to extend those Acts to the said area. The unauthorized erection of embankments or obstruction of water-courses can then be prohibited by a notification under section 6, and will thereafter be rendered punishable under section 76, of the Act of 1882. The Act contains other provisions which will be useful in the Sundarbans. Part III provides a procedure to be followed in cases of imminent danger to life and property, while Part VI contains useful provisions relating to the apportionment and recovery of costs. Having regard to the physical conditions which exist in the Sundarbans and the necessity for preserving from deterioration the tidal channels which are relied on for drainage and navigation, it is necessary that Government should possess the same powers in regard to embankments in this area as in the adjoining permanently-settled estates.

Secretary to the Government of Bengal and
Secretary to the Bengal Legislative Council.

3. BUILDINGS.

Various improvements were carried out during the year. The brick wall round the hippopotamus enclosure was raised all round, as the male hippo became very savage and tried to scale the wall several times. The path round the enclosure was also improved and new plants and shrubs grown.

In the New Antelope House the old iron fencing on the southern portion of the enclosure was found rotten and it was removed and new fencing erected

Between the Hermitage and the Gardens much old fencing was removed and a brick wall, 7 feet high, was built and shrubs and creeper planted, and the aspect of this part of the Garden was completely altered for the better.

The lowlands adjoining the Burdwan House circle used to be inundated by floods and high tides during the rainy season. A dwarf cemented wall was constructed to protect the Gardens and paths from the water coming from Tolly's Nullah.

The inner and the outer exhibition cages of the Dumraon House were provided with strong wire-netting of half-inch mesh to prevent visitors from poking the animals.

A portion of the lands lying by the side of the Reptile House and occupied by the Indian Refreshment Stall was cleared and the land raised and returfed. A new ornamental fencing was erected round it and ornamental plants and shrubs planted. The general appearance of this part of the Garden has thus been greatly improved.

Many new paths were laid and gravelled and extensive widening and alterations were made. Portions of the main drive were remetalled and the path between the paddocks was thoroughly repaired and all the roads and paths were covered with *surki* siftings.

The annual repairs of the buildings in the Garden were carried out departmentally on an extensive scale and much painting of fences and ironworks was done during the year.

* * * * *

Besides these, petty repairs of smaller houses, sheds and enclosures were attended to. The Garden paths were improved and gravelled and every effort was made to improve the general appearance of the Garden.

4. FINANCE.

It will appear from the comparative statement of receipts from visitors that the financial condition of the Garden was even better than that of the previous year which was exceptionally good in this respect :—

The thanks of the Committee are due to the ladies and gentlemen who have added to the collection of the Garden by their donations, a list of which is given in Appendix D. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted, either because the particular species of animals was already sufficiently well represented, or owing to the want of accommodation.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 16th November 1914

Summary.—During the week under review no rain fell throughout the province excepting scanty showers in Darjeeling and the Alipur Duars. Want of rain is keenly felt everywhere for winter rice and for the cultivation of *rabi* crops. The prospects of winter rice are generally reported to be unsatisfactory. The crop is so far doing well only in the low lands of the eastern districts and in tracts where irrigation is available. Damage to winter rice by insect-pests continues to be reported from parts of Midnapore. Cattle-disease is reported from ten districts. The average price of common rice has a slight tendency to rise as compared with that of the previous week.

CALCUTTA,
The 17th November 1914.

J. R. BLACKWOOD,
Director of Agriculture, Bengal.

STATEMENTS SHOWING THE QUANTITIES OF THE PRINCIPAL STAPLES OF TRAFFIC IMPORTED INTO AND EXPORTED FROM CALCUTTA IN THE FOUR MONTHS OF APRIL TO JULY 1914.

TRADE FLUCTUATIONS.

THE following statistical tables are intended to show the trade of Calcutta in selected articles during the months of April to July 1914 by all routes, *i.e.*, by rail, road, river, canal and sea. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the District Magistrates of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

It will be seen from the tables that the imports of food-grains into Calcutta in the four months of April to July 1914 were less than in the corresponding periods of 1913 and 1912. The total imports of rice, wheat, wheat-flour, gram and pulse and other food-grains were over 12,000,000 maunds, as against 14,000,000 maunds and 21,000,000 maunds in the corresponding periods of 1913 and 1912. The imports of rice and paddy were 8,000,000 maunds, as against 5,000,000 and 8,000,000 maunds in the corresponding periods of 1913 and 1912. The 24-Parganas supplied Calcutta with almost half of the total rice imported from Bengal into Calcutta. The imports of rice and paddy into Calcutta from Bengal were roughly 50 per cent. of those from Burma. The total imports of wheat declined from 3,831,000 in the four months of 1913 to 1,573,000 maunds in the same period in 1914. The imports of coal and coke, Indian cotton piece-goods, indigo, rape and mustard, sugar refined and unrefined and unmanufactured tobacco were less than in the corresponding period of last year, while the imports of raw cotton, cotton twist and yarn, raw jute, gunny-bags, lac, linseed, tea and manufactured tobacco showed increases. Of the Rs. 52,00,000 of Indian cotton piece-goods imported into Calcutta, Rs. 33,00,000 came from Bombay, Rs. 7,00,000 from Hooghly and about Rs. 2,00,000 from the 24-Parganas. Almost Rs. 20,00,000 each were imported by the Bengal-Nagpur Railway and the Eastern Bengal State Railway, the imports by the East Indian Railway being almost Rs. 3,00,000. Jute was imported chiefly from Dacca (117,000 bales) followed by Faridpur with 81,000, Mymensingh 79,000 and 24-Parganas 54,000. The total imports were approximately 565,000 bales. Nearly 77,000,000 gunny-bags were imported almost entirely from the districts of Hooghly and the 24-Parganas. The exports of the number of gunny-bags were over 319,000,000, of which 289,000,000 went to foreign countries other than the United Kingdom, 12,000,000 to the United Kingdom, 10,000,000 to Burma and about 3,000,000 each to Bombay and Sind.

There was a considerable decline in the exports of food-grains by sea. In the four months April to July 1912, the exports of rice amounted to 6,484,000 maunds, wheat to 2,557,000 maunds, gram and pulse 2,660,000 and other food-grains 3,292,000 maunds. In the corresponding period of 1914 the exports were: Rice 2,267,000 maunds, wheat 54,000 maunds, gram and pulse 658,000 maunds and other food-grains 63,000 maunds. In other words, for the four months of 1914 the total exports of food-grains were 3,214,000 maunds, as against 8,335,000 and 15,164,000 in 1913 and 1912.

Duration and number of licenses.

58. Licenses for the wholesale or retail vend of excisable articles may be granted for one year, from the 1st April to the 31st March, subject to the following provisions :—

(1) licenses for the retail vend of country spirit, *ganja*, *bhang* or *charas*, in the Calcutta district, may be granted for three years beginning on the 1st April ;

(2) licenses for the retail vend of *pachwai* may be granted for any number of years up to three beginning on the 1st April, in cases where the Excise Commissioner considers this advisable ;

(3) if any license be granted during the course of the financial year, it shall be granted only up to the 31st March next following ;

(4) season licenses for the sale of fresh *tari* may be granted for periods fixed by the Collector ;

(5) temporary licenses may be granted to provide for the supply of excisable articles on temporary and special occasions, *e.g.*, fairs, regimental camps of exercise, etc., and shall be limited to the period during which such temporary or special occasions last ;

(6) wholesale licenses for the supply and sale of excisable articles may be granted for any number of years not exceeding five, as the Local Government may decide in each case.

59. The number of licenses which may be granted for any local area shall be regulated by the needs of the people of that area, and no license for the sale of any excisable article in any local area shall be granted unless it is required either to meet and ascertain demand for such article or to counteract supply through illicit sources.

60. The general principles below stated shall be borne in mind, and shall be applied by Collectors so far as possible in fixing the number of licenses to be granted for the retail sale of liquor and *ganja* :—

Liquor and *ganja* shops should not be so sparsely distributed as to give to each a practical monopoly over a considerable area, or at least such a monopoly should only be allowed when prices can be effectively fixed. At the same time, two or more shops should not be equally convenient to a considerable number of persons. In other words, liquor and *ganja* shops need not be so limited in number as to make it practically impossible for a resident in a particular area to get his liquor or *ganja* except from one particular shop ; but it should only be possible for him to obtain his requirements from two different shops at the cost of considerable inconvenience, and he ought to have as little freedom of choice in the matter as possible.

Location of shops.

61. (*1*) No new shop shall be licensed, for the consumption of liquor on the vendor's premises,—

(*a*) in a market-place, or

(*b*) at the entrance to a market-place, or

(*c*) in close proximity to a bathing ghât, school, hospital, place of worship, factory, or other place of public resort, or

(*d*) in the congested portion of a village.

(2) So far as practicable, an established liquor shop licensed for the consumption of liquor on the premises should not be allowed to remain on a site which would not, under clause (1) of this rule, be permissible for the location of a new shop.

(3) In areas inhabited by aborginal tribes or tea garden coolies, country spirit shops shall not be licensed to be placed immediately on the side of a main road or in any other prominent position that may place temptation in the way of such persons.

62. In granting licenses for new shops, and, as far as practicable, in granting licenses for established liquor shops, the Collector shall have regard to the following principles:—

(*a*) a liquor shop should not be inaccessible to consumers, but it should not be in such a situation as to obtrude itself on the attention of the public or to render persons passing by subject to annoyance from persons drinking;

(*b*) in towns, the position of a liquor shop should be so far public that persons entering it should not escape observation, and it should be such as to render supervision easy, but it should not be so prominent as to compel attention, *e.g.*, by occupying a whole side of a public square;

(*c*) a liquor shop should never occupy a position to which the near neighbours object on grounds which, upon enquiry, appear to be sufficient and free from malice or ulterior motives.

63. Licenses for the retail sale of liquor at any place within two miles of the border of another district shall not be granted unless the Collectors of both districts concur, or, if they fail to concur, unless the Excise Commissioner so directs.

64. Except with the previous sanction of the Local Government no new shop shall be licensed for the retail sale of any excisable article within three miles of the State of Nepal or Bhutan or of the Native States of Hill Tippera or Cooch Behar, nor shall the site of any existing shop within such limits be changed by more than 440 yards from the site approved by the Local Government.

65. Licenses for the sale of foreign liquor for consumption on the vendors' premises shall only be granted in places where there is a proved demand on the part of a class of drinkers accustomed to foreign liquor, *e.g.*, in large industrial centres, or in towns where there is a population specially accustomed to drinking such liquor.

66. Licenses shall not be granted for the sale of foreign liquor and country spirit on the same premises.

Prohibition of grant of retail licenses to certain persons.

67. Licenses for the retail sale of any excisable article shall not ordinarily be granted—

(*a*) to any persons who have been convicted by a Criminal Court of a non-bailable offence, or

(*b*) to former licensees who are in arrears to Government, or whose conduct has been found to be unsatisfactory, or who have been found guilty of any serious breach of conditions of their licenses.

68. No license shall be granted to any person who is interested either directly or indirectly in the manufacture or sale of any excisable article in any foreign territory or Native State within or bordering upon Bengal.

69. No license shall be granted to an outstill licensee for the retail sale of foreign liquor or distillery spirit or *tari* in a shop within twenty miles of his outstill.

70. No license shall be granted to a distillery shop licensee for the retail sale of foreign liquor or *tari* in a shop within twenty miles of his distillery shop.

71. No license for the retail sale of country spirit shall be granted to any person who has been granted the exclusive privilege of manufacturing or supplying to retail vendors or of manufacturing and supplying country spirit to retail vendors thereof within a specified area, or to any person who

has a joint interest either directly or indirectly with the grantee of an exclusive privilege as aforesaid, in such grant.

Prohibition of sale to certain persons.

72. (*1*) No excisable article shall be sold—

(*a*) to any Railway servant at the time on duty, to any Excise or Police officer below the rank of Sub-Inspector being in uniform, any European vagrant under Police escort, or any insane person, by any licensed vendor or by the agent or servant of any licensed vendor, or

(*b*) to any soldier, whether in uniform or not, or any member of a soldier's family, or any camp-follower, by any licensed vendor or the agent or servant of any licensed vendor, unless such licensed vendor has been approved by the General Officer Commanding the Division or the Officer Commanding a Cantonment or Camp.

Provided that at Railway and Steamer Refreshment rooms and dâk bungalows—

(*i*) troops and camp followers marching under the command of an officer may be supplied with the consent of such an officer; and

(*ii*) soldiers and their families travelling in small parties not under the command of an officer may be supplied with a reasonable quantity if the men are in uniform and sober.

(*2*) In this rule,—

(*i*) "soldier" does not include a commissioned officer, a volunteer, or a soldier in civil employ, and

(*ii*) "camp-follower" means a person (other than a soldier or a private servant) whom the person selling an excisable article knows or has reason to believe to have a right to be in cantonments; and

(*iii*) the expressions "soldier," "member of a soldier's family," and "camp-follower" do not include an Indian soldier, or a member of an Indian soldier's family, or an Indian camp-follower, when such soldier or camp-follower is absent from his regiment.

ASCERTAINMENT OF LOCAL OPINION PRIOR TO THE GRANT OF CERTAIN LICENSES FOR THE RETAIL SALE OF LIQUOR AND INTOXICATING DRUGS.

73. (*1*) By the 20th October the Collector shall prepare a list showing what licenses it is proposed to grant for the retail sale of spirit, for consumption on the vendors' premises, for the next period of settlement.

(*2*) The said list shall specify, as accurately as may be possible, the locality of the premises to be licensed, and shall distinguish proposed new licenses from existing licenses which it is proposed to renew.

(*c*) send to the Commanding Officer of each cantonment an extract reproducing so much of the said list as relates to shops within the limits of the cantonment or within a distance of two miles from those limits, and

(*d*) give such opportunity as he thinks to be required for the expression of opinion—

(*i*) by Railway authorities, on proposals for the grant of licenses for shops near railway stations;

(*ii*) by Forest Officers, on proposals for the grant of licenses for shops for supplying spirit to aboriginal tribes inhabiting forests; and

The Chairman of each Municipality and of each Local Board shall cause a copy of the extract sent to him under rule 74, clause (*b*), to be conspicuously affixed at the central office of the Municipality or Local Board for a period of not less than seven days expiring before the 14th November, and shall send to each member of each Ward Committee (if any), and in the case of Local Boards, to each elected member not later than the 5th November, a copy of so much of the extract as relates to shops situated in his ward, or in the area for which he has been elected as a representative.

76. All objections and opinions with respect to proposals contained in the list referred to in rule 73 must be sent so as to reach the Collector (or in the Calcutta district, the President of the Licensing Board concerned) by the 15th November:

Provided that the Collector may delegate the duty of recording the opinion of any committee except the committee constituted for the Municipality at the district head-quarters and the Sadar Local Board to the Subdivisional Officer. Orders and Notifications by the Government of India.

No. 1019-A.

GOVERNMENT OF INDIA.

FINANCE DEPARTMENT.

Dated Delhi, the 10th November 1914.

ACCOUNTS AND FINANCE.
Loans, etc.

RESOLUTION.

PREVIOUS to the passing of the Local Authorities Loans Act of 1914, the law relating to the borrowing powers of local authorities was to be found in the following three Acts, as amended from time to time:—

(1) Act XI of 1879, known as "The Local Authorities Loan Act."
(2) The Local Authorities (Emergency) Loans Act (Act XII of 1897) which empowered local authorities to borrow money for temporary emergencies.
(3) Act III of 1901 which empowered local authorities to raise short-term loans.

2. The consolidation of the law effected by the Act of 1914 has rendered it necessary to consolidate also the existing statutory rules issued under the above Acts, *i.e.*, those published with the Notifications mentioned below, as subsequently amended:—

(1) No. 6565-A., dated the 24th October 1907, regarding the grant of loans to local authorities by Government.
(2) No. 6566-A., dated the 24th October 1907, regarding the raising of loans by local authorities in the open market.
(3) Notification No. 571-A., dated the 24th September 1912, regarding the sanction and grant of loans under the Emergency Loans Act of 1897.

Accordingly, these rules have now been cancelled and new consolidated rules have been framed, which are published with Notification No. 1020-A of to-day's date.

3. The process of consolidation has resulted in certain changes in the substance of the rules and in some simplification of their form. Opportunity has also been taken to make some further changes of substance, chiefly in the direction of removing restrictions which, in the opinion of the Government of India, it is no longer necessary to embody in statutory rules. The more important of these changes are enumerated below :—

(1) The distinction in the existing statutory rules (Notifications Nos. 6565-A. and 6566-A.), between 20 years as the maximum term up to which Local Governments can grant loans and 30 years as the limit for loans raised in the open market has been removed, the former limit being raised to 30 years.

(2) Rule 11 (2) of the existing rules regarding the grant of loans by Government (Notification No. 6565-A.) requires a report to the Government of India in cases in which, when it is not proposed to take the whole of the loan during the current financial year, the portion to be taken in future years exceeds one lakh of rupees per annum This provision has now been omitted.

(3) In the existing rules under the Emergency Loans Act (Notification No. 571-A.) it was contemplated that such borrowing, being for revenue purposes, would always be for a short term, ordinarily 5 years, and in no circumstances more than 15 years. This special restriction is not reproduced in the new rules.

(4) The restriction contained in rule 5 of the existing rules regarding the grant of loans by Government (Notification No. 6565-A.) which lays down a limit of 10 years for loans to be devoted to works which are mainly ornamental or convenient, such as a town hall, public garden or market-place, has been omitted.

(5) No mention is made in the new rules of the details which should be contained in the account of its financial position which a local authority has to furnish when applying for a loan or for permission to raise a loan.

(6) The new rules omit all reference to the larger Corporations, in view of the fact that applications by those bodies for loans from Government cannot be met from the Provincial Loan Account, while, as regards loans raised in the open market, the borrowing of such Corporations is governed by special Acts.

(7) Local Governments have been given authority to sanction, subject to certain limits, the raising of loans in the open market without previous reference to the Government of India.

(8) Rule 3 of the existing rules for the raising of loans by local authorities in the open market (Notification No. 6566-A.), which prescribes that loans shall be expressed in rupee currency has been omitted, as the stipulation, literally read, relates to a point of form only. The substantive question of the policy and procedure in respect to sterling borrowing is referred to below.

(9) The new rules (No. 18) contain the additional condition that, except with the special sanction of the authority which sanctions the loan, the sinking fund payments must begin within one year from the date of raising the loan. In the case of a loan taken by instalments the date here referred to will be that on which the last instalment of the loan is taken.

4. The matters dealt with in (1), (2), (3), (4) and (5) of the preceding paragraph have been omitted from the new statutory rules as now consolidated, because the Government of India consider it desirable to remove such questions from the category of hard-and-fast rules and to leave more to the discretion of Local Governments, guided by the circumstances of each particular case. At the same time it is not their intention to initiate any essential departure from the principles underlying the former statutory restrictions, as stated at length in their Resolution No. 6564-A., dated the 24th October 1907. With a view to making the present orders self-contained the Governor-General in Council takes this opportunity of restating the

more important considerations which Local Governments and Administrations should bear in mind in scrutinising applications for loans or for sanction to the raising of loans in the open market.

(1) The lengthening of the maximum term for loans taken from Government from 20 to 30 years does not imply that the Government of India consider that this maximum limit should be worked up to in each case. In many instances indeed, a much lower limit is desirable. Thus in the case of loans raised for famine or plague expenditure or for ornamental works, or for any other expenditure which should ordinarily be met from revenue, a much shorter period should normally be prescribed. In all cases an important factor in determining the period of the loan will be the nature of the works for which it is to be taken, and their utility and probable life; and in this connection the liability of the works to become obsolete as well as their intrinsic durability should also be considered. It should also be borne in mind that the prolongation of the loan period does not involve a proportionate decrease of the annual charges, and that in ordinary circumstances the policy of early repayment will most conduce to economical administration and the maintenance of the credit of the local body concerned.

(2) When a local authority desires to obtain a loan, the account of its financial position, required under rule 4 (8), should be in sufficient detail to exhibit the financial position of the local authority for the three last preceding years, and in particular the following instructions should be observed:—

(*a*) The receipt side of the account should show only ordinary revenue. Receipts from loans or deposits, or the investments of sinking funds should be excluded as well as items of abnormal character which should be indicated separately when required.

(*b*) On the expenditure side interest on debt and payments to a sinking fund should be included, and all expenditure from loan funds and repayment of advances or deposits should be excluded.

(*c*) Explanations should be given of important variations in the accounts of revenue and expenditure.

(3) Similarly when a loan is required for the financing of extensive projects, the local body concerned should be required to submit a comprehensive works and loan programme and to indicate the expected annual distribution of the expenditure and borrowings involved. No expenditure should ordinarily be incurred on the works until the loan for the entire project has been sanctioned, and the project itself has received the technical and administrative approval of the authority with whom the power of sanction rests.

(4) In the case of loans raised by local bodies in the open market it is at present the practice, in all cases, to require that the date of issue shall receive the previous approval of the Government of India. In future this condition will only apply if (*a*) the loan exceeds Rs. 5 lakhs or has a currency exceeding 30 years, and thus requires the sanction of the Government of India, and (*b*) if it is proposed to issue it at a date later than the end of April and prior to the floatation of the Government of India's rupee loan for the same year.

(5) Applications from local bodies for permission to issue sterling loans cannot be favourably considered unless there is a reasonable prospect of the money being raised at a rate of interest not more than 1 per cent. above that at which the Government of India can itself at the time borrow in London and at a price not appreciably below par. Such applications require the approval of the Secretary of State; and the date on which the local authority proposes to float the loan must also be reported for his previous approval. It is essential to the success of such borrowing that timely application should be made: that the transactions

should be conducted with all possible despatch at every stage: and that the negotiations should be perfectly definite on all important points. The borrowing body is required to make its own arrangements for bringing out the capital to India and for remitting the interest to the holders of the stock.

(6) The rate at which the improvement of the sinking fund is to be calculated under rule 18 (1) should ordinarily not be assumed to be higher than 3 per cent. per annum. The matter is one in which a policy of caution is essential in order to ensure that there shall be no risk of the scheme of repayment failing to conform to the expectations on which the loan was originally raised. At the same time the Government of India do not desire to fetter unduly the discretion of Local Governments in this matter, and cases will doubtless arise in which a slightly higher rate than 3 per cent. can safely be assumed. This may, for example, be legitimate in the case of loans for unusually short periods. Again, there is the special case of a local body creating a sinking fund by the purchase of its own securities.

5. Ordered that the Resolution be communicated to all Local Governments and Administrations, and to the Commerce and Industry, and the Education Departments.

Ordered also that the Resolution be published in the *Gazette of India*.

Prescribed conditions

11. (1) In granting or sanctioning a loan, the Governor General in Council or the Local Government, as the case may be, may prescribe any further conditions not inconsistent with the Act, and with these rules, as he or it may think fit.

2. In particular and without prejudice to the generality of sub-rule (1), the following conditions shall be prescribed, namely :—

(*i*) In the case of every loan, that the Local Government shall determine and the Local Authority shall pay the cost—

(*a*) of any enquiry made under rule 5,

(*iii*) In the case of a Government loan, that the Local Government, if it considers that the Local Authority has failed to comply with any of the conditions prescribed in respect of the loan or with any of the requirements of these rules, may at any time order that no further payments shall be made on account of such loan, and that any amount advanced with interest thereon shall be repaid immediately.

(*iv*) In the case of a non-Government loan, that the Local Authority shall not, without the previous approval of the Authority which sanctioned the loan, vary the dates within which the raising of the loan, or of the first instalment of it, has been sanctioned ; and that, if the loan is raised by instalments, the Local Authority shall report, for the previous approval of the sanctioning Authority, the dates within which each further instalment is to be raised.

Control and Inspection of Works and Accounts.

12. The Local Government shall make such provision as it may deem necessary—

(*a*) for ascertaining and securing that the money borrowed is duly applied to the purpose for which it has been borrowed, and that the unexpended balance of the loan is not employed otherwise than in accordance with these rules.

(*b*) where the loan is taken for any of the purposes specified in clauses (*i*), (*ii*), (*iii*) or (*iv*), of sub-section (*1*) of section 3, for the proper inspection of the work to be carried out: provided that every such work and the accounts connected therewith shall be open at all times to the inspection of—

(2) of any person who may be authorised to inspect the accounts of the Local Authority, and

Procedure on attachment

13. When the Local Government decides to attach any funds under section 5, the following procedure shall be observed, namely :—

(*a*) The Local Government shall issue a notice to the Local Authority prohibiting the collection or management of such funds by the Local Authority, and vesting the administration thereof in such officer as the Local Government may appoint. The Local Government shall cause such notice to be published in the local official gazette, and in such other manner as it may deem fit within the local limits of the area subject to the control of the Local Authority.

(*b*) The officer appointed by the Local Government under section 5 shall pay the moneys collected or received under such attachment to the lender, or, in the case of a Government loan, into the Government Treasury.

(*c*) The said officer shall prepare the accounts of moneys so collected, and of the cost of collection, in such form as the Local Government may, from time to time, direct. He shall deliver a copy of the accounts to the Local Authority, and shall cause a copy to be published in the local official gazette.

Unexpended balances

14. If, on the completion of the work or the closing of the account of the transaction for which a Local Authority has borrowed money, the Local Government is satisfied that the whole of the money has not been spent on the purpose for which it was borrowed it shall proceed as follows, namely :—

(*a*) *In the case of a Government loan.*—The Local Government shall direct that the unexpended balance shall be forthwith repaid to Government, and the principal of the debt reduced by an equivalent amount. The Local Government may direct such variation as it may consider necessary on this account in the instalments fixed for the liquidation of the loan.

(*b*) *In the case of a non-Government loan*—

(*i*) If the Local Government itself sanctioned the raising of the loan, or if the unexpended balance of the loan does not exceed the amount which the Local Government is competent to sanction as an original loan, it may direct that the unexpended balance shall be utilised either in the reduction in any way of the debt of the Local Authority, or in carrying out any works which that Authority is legally authorised to carry out.

(*ii*) In cases not falling under clause (*i*) the Local Government may direct that the unexpended balance shall be utilised in the reduction in any way of the debt of the Local Authority; or, with the previous sanction of the Governor General in Council, that the unexpended balance shall be utilised in the carrying out of any works which the Local Authority is legally authorised to carry out.

Interest on Government loans

15. The following provisions shall apply to interest on Government loans, namely :—

(1) Interest shall be charged, at the rate agreed upon, yearly or half-yearly, as the Local Government may determine, and shall be reckoned and paid on each instalment from the date on which such instalment is received by the Local Authority.

(2) The Local Government may, if it thinks fit, direct that compound interest at a rate not less than 6 per cent. per annum shall be paid upon all overdue instalments of interest, or of principal and interest.

Repayment of Government loans

16. With the previous consent of the Local Government, the Local Authority may, at any time, repay the whole or any part of a Government loan in advance of the period fixed by the conditions of the loan.

Accounts of Government loans.

17. The accounts of every Government loan shall be kept by the Account Officer of the province in which it is made.

Sinking fund for non-Government loans

18. If a loan is not repayable by annuities or annual drawings, the Local Authority shall establish a sinking fund, in the following manner, namely :—

(1) It shall pay out of its income, yearly or half-yearly, into such fund, a sum which accumulating at such rate of compound interest as the Authority sanctioning the loan may fix, will be sufficient to secure the liquidation of the loan within the term fixed for its repayment;

(2) It shall make the first of such payments within one year from the date of taking or raising the loan, unless the sanctioning authority otherwise directs; and

(3) It shall submit the accounts of its sinking fund annually to the Account Officer of the province, and shall at once make good from its income any amount by which he may certify that the fund is deficient, unless the Governor General in Council sanctions a gradual readjustment.

Loans for railway construction repayable at option

19. Notwithstanding anything contained in the foregoing rules, it shall be permissible, with the previous sanction of the Governor General in Council, for a District Board, which desires to construct a railway, partly from the proceeds of a cess levied for that purpose and partly from borrowed funds, to borrow money by means of debentures repayable at the option of such District Board.

5. It is intended during the year 1916-17 to erect new warehouses at Kolaghat (Bengal-Nagpur Railway) and Bandel and to close the warehouses at Tamluk, Ghatal, Uluberia, Serampore, Chinsura and Kalna. The supplies from these warehouses will then be distributed between Kolaghat, Chandrakona Road, Katwa, Burdwan, Bandel and Barrackpore warehouses. Other warehouses may eventually be discontinued and new warehouses opened, but there is no intention to do so at present.

6. The rates tendered must include the cost of carriage of the spirit from the distillery to the warehouses and the spirit must be issued to retail vendors at a uniform rate per London proof gallon and at such fixed strengths as may be prescribed from time to time by Government.

7. The contractor will be required to purchase from the existing contractors at the price now current for the warehouse in which such spirit is stored the spirit in stock at the warehouses, but he shall not be bound to take over a quantity in excess of the probable requirements for fourteen days. The contractor must deposit not later than 21st March 1916 in each warehouse stock of spirit from his own distillery, equivalent to the probable requirements for one month.

8. The spirit must have been made in the contractor's own distillery in India.

9. In the case of the distillery not being situated in Bengal, the Commissioner of Excise will require satisfactory evidence that the plant is adequate to meet the total demands made upon the distillery, and he may require the contractor to instal additional stills and other accessories.

10. The contractor will be bound to provide all plant, viz., vats, pumps, pipes, etc., required for the storing, reducing and issue of liquor or, if there be any such plant belonging to the present contractor in the warehouses, he will be required to purchase such plant which is in use and in serviceable condition at a valuation made, if necessary, in accordance with paragraph 18.

11. About sixty new wooden vats, varying in capacity from 200 to 1,000 gallons, more or less, must be installed in certain warehouses by 1st March 1916, and facilities will be granted for the erection of the vats before that date. The contractor is also bound to provide such additional vats, pumps, or other appliances as the Excise Commissioner may consider necessary for the proper equipment of the warehouse or distillery.

12. Water for reduction purposes is available at or near each warehouse, but the cost of supplying and maintaining the pumps or manual labour required and of filtration, etc., must be borne by the contractor.

13. The contractor shall be bound to maintain at each warehouse such minimum daily stocks as may, from time to time, be fixed by the Commissioner of Excise.

14. The contractor must keep an agent at each warehouse and shall be responsible for reducing spirit to issue strengths and for all wastages and shrinkages.

15. In case the contract be not renewed at its expiry the contractor will be bound to allow Government the right of pre-emption of the vats, pumps, pipes, etc., at a valuation made by two valuers according to paragraph 18 and in the case of the distillery being situated in this province this clause will apply to the distillery buildings and plant.

16. Form of grant and license may be obtained from the Commissioner of Excise on application. The contractor will be bound by all the conditions entered therein and by the provisions of the Excise Act in force within the Presidency and by the rules and instructions of Government or the Excise Commissioner issued under such Act.

18. Any valuations required will be made by two valuers--one to be selected by the Commissioner of Excise, and the other by the existing contractors. In the event of differences in the valuations, the matter will be referred to Government, whose decision will be final.

19. The Commissioner is not bound to accept the lowest or any tender.

20. Tenders, enclosed in sealed covers and marked "Bengal Spirit Contracts," will be received up to the 28th February 1915 by the Commissioner of Excise, Calcutta, to whom application in writing only may be made for further particulars.

OF IMPORTATION OF PETROLEUM.

Ports of importation

1. The ports of Calcutta and Chittagong are hereby declared to be the only ports at which petroleum may be imported.

Declaration by master of ship carrying petroleum or by the ship's agent.

2. The master of every ship carrying petroleum shall deliver to the pilot before entering either of the ports mentioned in rule 1, a written declaration under his signature stating—

(*a*) what quantity of petroleum the ship is carrying;
(*b*) whether any and, if so, what part of it is dangerous petroleum;
(*c*) whether any and, if so, what part of it is certificated petroleum;
(*d*) whether any and, if so, what part of it is petroleum having a flashing-point above 150° of Fahrenheit's thermometer; and
(*e*) what quantity of petroleum [specifying whether any and, if so, what part of it belongs to each of the classes (*b*), (*c*) and (*d*)] it is intended to land at either of the ports specified in rule 1 or at any other port in British India:

Provided that if, in anticipation of a ship's arrival, the agent for such ship delivers to the Port Officer a written declaration as aforesaid under his signature, no such declaration shall be necessary by the master of the ship.

Delivery of certificate.

3. If the master or agent declares that any petroleum is certificated petroleum which it is intended to land at either of the ports specified in rule 1 or at any other port in British India, he shall deliver to the pilot, along with his declaration, the certificate relating to such petroleum.

Certificate and declaration to be forwarded to Assistant Harbour Master or Port Officer.

4. Every certificate and declaration delivered to a pilot under rules 2 and 3 shall be made over by him without delay in the port of $\frac{\text{Calcutta}}{\text{Chittagong}}$ to the $\frac{\text{Assistant Harbour Master}}{\text{Port Officer, Chittagong}}$ who shall transfer them without delay to the Superintendent of the Port Commissioners' Petroleum Wharf at Budge-Budge or the Collector of Customs, Chittagong, as the case may be.

Delivery of samples.

5. (*1*) When the master of, or the agent for, a ship has made the declaration required by rule 2, the Superintendent of the Petroleum Wharf, Budge-Budge, or the Collector of Customs, Chittagong, as the case may be, shall direct an officer

N B—The rules in Part III are inoperative in the Port of Chittagong in so far as they relate to the taking of samples and the testing of petroleum as there is no testing officer at present at that port. Telegraphic certificates by the Chemical Examiner, Rangoon, in respect of the flash point of petroleum imported are accepted.

to go on board the vessel and obtain samples of all the petroleum on board which it is intended to land at the port of Calcutta or Chittagong as the case may be. If the importer so desires he shall also take samples of all the petroleum on board which it is intended to land at any other port in British India :

Provided that no samples need be taken in the case of petroleum which is declared to be dangerous.

(*2*) The master shall deliver to the officer aforesaid, without charge, samples of every variety of petroleum comprised in the petroleum of which samples are to be taken under sub-rule (*1*). Such samples shall, if such officer so require, be taken from the particular receptacles indicated by him and under his personal superintendence, and shall not exceed forty fluid ounces :

Provided that when the petroleum is in cases, samples may be taken as delivery proceeds.

Selection of samples

6. The minimum number of samples to be selected of each brand or quality contained in the cargo shall be as follows :—

(*a*) of certificated petroleum in cases—

one sample for every fifteen thousand cases or fraction of fifteen thousand cases ;

(*b*) of certificated petroleum in casks or drums declared to be of uniform quality—

one sample for every one hundred and twenty thousand gallons or part of one hundred and twenty thousand gallons ;

(*c*) of certificated petroleum in bulk or in tanks—

one sample from each group of tanks or tank compartments certified to be of the same brand or quality ;

(*d*) of petroleum other than certificated, in cases—

one sample for every ten thousand cases or fraction of ten thousand cases ;

(*e*) of petroleum other than certificated, in casks or drums declared to be of uniform quality—

one sample for every eighty thousand gallons or part of eighty thousand gallons ;

(*f*) of petroleum other than certificated in bulk or in tanks—

one sample from each tank or tank compartment.

Sealing of samples and forwarding the same to testing officer

7 When the samples required have been delivered to the officer aforesaid, such officer shall forthwith seal the bottles containing the samples, and shall label them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary. He shall then forward them to the testing officer.

Methods of test

8. The testing officer shall test the samples thus received in the manner laid down in the first Schedule to the Act.

Averaging results of tests

9 If more than one sample of any one brand or quality forming the cargo or a portion of the cargo of a ship is sent to the testing officer for report, that officer shall test each sample separately and strike an average of the results. If the average flashing point is not lower than 73° of Fahrenheit's thermometer, and no one test gives a flashing point below 70° of that thermometer, he shall report the whole of the petroleum represented by the samples to the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, as non-dangerous.

Procedure when tests show want of uniformity

10. If the testing officer, after testing samples, considers further tests necessary to satisfy him that none of the petroleum is dangerous, he shall report to the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, accordingly.

Procedure on report.

11. On receipt of a report under rule 10—

(*a*) when the consignment is imported in cases, the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, shall cause the petroleum in question to be landed, or to be discharged into boats, and the officer referred to in rule 5 shall select and deliver to the testing officer one sample from every thousand cases;

(*b*) when the consignment is imported in bulk, the Port Commissioners, Calcutta or the Collector of Customs, Chittagong, as the case may be, shall forward a second sample and, until receipt of the testing officer's further report, may prevent the landing of any portion of the contents of the tank in question, or may permit it to be landed as provided in rule 18;

(*c*) if the petroleum has been already landed and stored under rule 18 samples shall be selected as aforesaid.

Report of testing officer

12. The testing officer shall, as soon as practicable, and ordinarily within twenty-four hours after receipt of any samples, sign a report certifying that they are, or are not, dangerous petroleum, as the case may be, and shall forward such report to the office of the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, where it shall be deposited.

Fee for testing

13. The fee for testing each sample shall be five rupees:

Provided that the total amount of the fees chargeable under this rule shall not, in the case of any one ship, exceed Rs. 50.

When a ship carrying petroleum may anchor at ordinary anchorage

14. A ship may proceed to the usual anchorage in either of the ports specified in rule 1 and there discharge any certificated petroleum not exceeding five thousand gallons in quantity:

Provided that the officer whose duty it is, under rule 5, to select samples of petroleum on board, may at any time take a sample of any such petroleum for the purpose of having it tested.

Exception in respect of petroleum declared dangerous which is not in excess of forty gallons.

15. If the quantity of petroleum declared dangerous on board a ship does not exceed forty gallons and there is no other petroleum on board, or the aggregate quantity of petroleum on board, including petroleum declared dangerous, does not exceed forty gallons, the said petroleum may be forthwith landed.

When a ship carrying petroleum must anchor at a special anchorage

16. Save as provided in rules 14 and 24, every ship having petroleum on board shall be anchored at such anchorage as the Conservator of the port shall appoint in this behalf. If the petroleum is intended to be discharged at either of the ports specified in rule 1, the vessel shall not leave such anchorage, except for the purpose of discharge of bulk oil petroleum as laid down in rule 19, until all the petroleum has been so discharged. If the petroleum or a portion of it is intended for some other port, the petroleum or such portion of it shall be temporarily discharged at such anchorage before the vessel proceeds into the harbour. If it is not so discharged, the vessel shall remain at such anchorage until her final departure.

Such anchorage shall in no case be the same as that for vessels laden with explosives, and shall be sufficiently far removed from the anchorage for vessels laden with explosives to prevent the possibility of a fire originating at the former place affecting vessels anchored at the latter.

Petroleum referred to in rule 16 not to be landed until it has been tested

17. Save as provided in rule 18, no petroleum, of which samples have been taken under rule 5, shall be landed from any ship referred to in rule 16 until the testing officer's report in respect thereof has been received in the office of the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be.

Landing of petroleum in anticipation of the testing officer's report.

18. (*1*) The Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, may, in anticipation of the testing officer's report, allow the consignee of any petroleum to discharge the same into boats or to land it.

(2) Such permission shall be subject to the condition that the boats into which the petroleum is discharged shall remain at such place as may be directed by the Port Commissioners, Calcutta, or the Collector of Customs, Chittagong, as the case may be, or that the petroleum shall be landed at a landing-place duly appointed for this purpose, and be stored in an installation licensed under rule 13 or 14 of Chapter IV, Part II.

Landing of petroleum in bulk

19. When petroleum is imported in bulk, its removal from the ship shall be effected by means of a hose and a metal pipe, and it shall be pumped into storage-tanks. The discharge shall be continuous, day and night, until completed, weather and appliances permitting. When working at night electric light only shall be used; and, when the ship has finished discharging, the pipe to the storage-tanks shall immediately be emptied by means of a supplementary pump on shore. If for any cause the discharge of petroleum is at any time suspended, arrangements must be made by means of a valve for effectually preventing any of the oil left in the pipe from escaping.

Landing of petroleum otherwise than in bulk.

20. When petroleum imported otherwise than in bulk is landed within the port—

(1) it shall be landed either at jetties provided for the purpose, or in cargo-boats, and, except where electric light is exclusively used, only after sunrise and before sunset, and only at such place or places as the Conservator of the port shall direct;

(2) dangerous and non-dangerous petroleum shall not be conveyed to the shore at the same time on the same cargo-boat;

(3) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed in any cargo-boat during the time that the petroleum is on board the boat.

Trans-hipment of petroleum

21. Petroleum may be transhipped from one ship to another for conveyance to any other port, whether within or beyond the limits of British India:

Provided that—

(*a*) the petroleum shall not be transhipped between sunset and sunrise except when electric light is exclusively used,

(*b*) dangerous and non-dangerous petroleum shall not be conveyed at the same time on any boat which is used for transhipping the petroleum, and

(*c*) no smoking, fire or light of any description (other than lights required by the port rules), shall be allowed on any boat which is being used for transhipping the petroleum from the one ship to the other.

Import-licenses how obtainable.

22. (*1*) Applications for import-licenses under section 5 of the Act shall be submitted to the officer appointed by the Government of Bengal in this behalf, who will, after enquiry, forward the same with his opinion to the Government of Bengal.

(*2*) If the application is granted, a license in Form M, signed by a Secretary to the Government, shall be forwarded to the applicant through the officer to whom his application was submitted. The license may be granted for a period of twelve months.

Petroleum comprised in ship's stores.

23. Nothing in the foregoing rules in this Part applies to petroleum, other than dangerous petroleum, comprised in a ship's stores and manifested as such provided it is not of unreasonably large amount. If any question arises as to whether any petroleum manifested as ship's stores of an unreasonably large amount, the decision thereon of the Collector of Customs shall be final.

Petroleum having a flashing point above 150° F

24. Nothing in the foregoing rules in this Part applies to petroleum which has a flashing point above 150° of Fahrenheit's thermometer. If the master of, or agent for, a ship certifies in writing that any petroleum on board is of this description, the Port Commissioners Calcutta, or the Collector of Customs,

Chittagong, as the case may be shall allow it to be discharged in the same manner as ordinary cargo; but the Superintendent of the Petroleum Wharf at Budge-Budge or in Chittagong, the Superintendent of Police or the District Magistrate, as the case may be, may at any time require a sample of any portion of it to be delivered to him, with a view to having it tested.

SCHEDULE.

Protocol concerning the Jurisdiction applicable in the Kingdom of Siam to British subjects and annexed to the Treaty, dated the 10th March 1909.

Section 1. International Courts shall be established at such places as may seem desirable in the interests of the good administration of Justice; the selection of these places shall form the subject of an understanding between the British Minister at Bangkok and the Siamese Minister for Foreign Affairs.

Section 2. The jurisdiction of the International Courts shall extend—

1. In civil matters: To all civil and commercial matters to which British subjects shall be parties.

2. In penal matters: To breaches of law of every kind whether committed by British subjects or to their injury.

Section 3. The right of evocation in the International Courts shall be exercised in accordance with the provisions of Article 8 of the Treaty of the 3rd September 1883.

The right of evocation shall cease to be exercised in all matters coming within the scope of codes or laws regularly promulgated as soon as the text of such codes or laws shall have been communicated to the British Legation in Bangkok. There shall be an understanding between the Ministry for Foreign Affairs and the British Legation at Bangkok for the disposal of cases pending at the time that the said codes and laws are communicated.

Section 4. In all cases, whether in the International Courts or in the ordinary Siamese Courts in which a British subject is defendant or accused, a European legal adviser shall sit in the Court of First Instance.

In cases in which a British-born or naturalized subject not of Asiatic descent may be a party, a European adviser shall sit as a Judge in the Court of First Instance, and where such British subject is defendant or accused the opinion of the adviser shall prevail.

A British subject who is in the position of defendant or accused in any case arising in the provinces may apply for a change of venue, and should the Court consider such change desirable, the trial shall take place either at Bangkok or before the Judge in whose Court the case would be tried at Bangkok. Notice of any such application shall be given to the British Consular Officer.

Section 5. Article 9 of the Treaty of the 3rd September 1883 is repealed.

Appeals against the decisions of the International Courts of First Instance shall be adjudged by the Siamese Court of Appeal at Bangkok. Notice of all such appeals shall be communicated to His Britannic Majesty's Consul, who shall have the right to give a written opinion upon the case to be annexed to the record.

The judgment on appeal from either the International Courts or the ordinary Siamese Court shall bear the signature of two European Judges.

Section 6. An appeal on a question of law shall lie from the Court of Appeal at Bangkok to the Supreme or Dika Court.

Section 7. No plea of want of jurisdiction based on the rules prescribed by the present Treaty shall be advanced in any Court after a defence on the main issue has been offered.

Section 8. In order to prevent difficulties which may arise in future from the transfer of jurisdiction contemplated by the present Treaty and Protocol, it is agreed—

(*a*) all cases in which action shall be taken subsequently to the date of the ratification of this Treaty shall be entered and decided in the competent International or Siamese Court, whether the cause of action arose before or after the date of ratification.

(*b*) All cases pending in His Britannic Majesty's Courts in Siam on the date of the ratification of this Treaty shall take their usual course in such courts and in any Appeal Court until such cases have been finally disposed of, and the jurisdiction of His Britannic Majesty's Courts shall remain in full force for this purpose.

The execution of the judgment rendered in any such pending case shall be carried out by the International Courts.

In witness whereof the respective Plenipotentiaries have signed the present protocol and affixed their seals.

No. 1203-W.—In supersession of the Notification in this department, No. 9848, dated the 19th September 1914, the following "Order in Council" is published for general information :—

AT THE COURT AT BUCKINGHAM PALACE.

The 29th day of October 1914.

PRESENT:

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by an Order in Council, dated the 20th day of August 1914, His Majesty was pleased to declare that during the present hostilities the

Convention known as the Declaration of London should, subject to certain additions and modifications therein specified, be adopted and put in force by His Majesty's Government; and

Whereas the said additions and modifications were rendered necessary by the special conditions of the present war; and

Whereas it is desirable and possible now to re-enact the said Order in Council with amendments in order to minimise, so far as possible, the interference with innocent neutral trade occasioned by the war:

NOW, THEREFORE, His Majesty, by and with the advice of His Privy Council, is pleased to order, and it is hereby ordered, as follows :—

1. During the present hostilities the provisions of the Convention known as the Declaration of London shall, subject to the exclusion of the lists of contraband and non-contraband, and to the modifications hereinafter set out, be adopted and put in force by His Majesty's Government.

The modifications are as follows :—

(i) A neutral vessel, with papers indicating a neutral destination, which, notwithstanding the destination shown on the papers, proceeds to an enemy port, shall be liable to capture and condemnation if she is encountered before the end of her next voyage.

(ii) The destination referred to in Article 33 of the said Declaration shall (in addition to the presumptions laid down in Article 34) be presumed to exist if the goods are consigned to or for an agent of the enemy State.

(iii) Notwithstanding the provisions of Article 35 of the said Declaration, conditional contraband shall be liable to capture on board a vessel bound for a neutral port if the goods are consigned "to order," or if the ship's papers do not show who is the consignee of the goods or if they show a consignee of the goods in territory belonging to or occupied by the enemy.

(iv) In the cases covered by the preceding paragraph (iii) it shall lie upon the owners of the goods to prove that their destination was innocent.

2. Where it is shown to the satisfaction of one of His Majesty's Principal Secretaries of State that the enemy Government is drawing supplies for its armed forces from or through a neutral country, he may direct that in respect of ships bound for a port in that country, Article 35 of the said Declaration shall not apply. Such direction shall be notified in the "London Gazette" and shall operate until the same is withdrawn. So long as such direction is in force, a vessel which is carrying conditional contraband to a port in that country shall not be immune from capture.

CORPORATION OF CALCUTTA.

NOTICE.

CLAUSE 47 of the Rules under section 73 (*b*) of the Calcutta Municipal Act regulating the grant of leave, leave and acting allowances to Municipal officers and servants, which were sanctioned by the Local Government in 1910 and are at present in force reads as follows:—

"An officer with a substantive appointment, officiating in another appointment or in a higher grade, is entitled to his own substantive pay and an acting allowance of one-fifth of the minimum pay of that appointment or grade, subject to the limit that his pay shall not exceed the minimum pay of the appointment or grade in which he is acting.

"*The minimum salary of an officiating officer is the pay which he would receive monthly if he held the appointment substantively.*"

The Corporation propose to omit the latter part of the rule (which is italicized) as in a sense it is contradictory to the first part of the rule and has, in practical application, resulted in confusion and difficulty.

The proposal is published for general information in compliance with the provisions of section 568 (1) of the Act. Objections, if any, to the proposal should be submitted so as to reach the undersigned on or before the 2nd January 1915, after which date the draft will be further proceeded with.

4. As the whole contract will not be given to one party, tenders should be submitted for parts of the contract either with or without a tender for the whole area.

5. It is intended during the year 1916-17 to erect new warehouses at Kolaghat (Bengal-Nagpur Railway) and Bandel and to close the warehouses at Tamluk, Ghatal, Uluberia, Serampore, Chinsura and Kalna. The supplies from these warehouses will then be distributed between Kolaghat, Chandrakona Road, Katwa, Burdwan, Bandel and Barrackpore warehouses. Other warehouses may eventually be discontinued and new warehouses opened, but there is no intention to do so at present.

6. The rates tendered must include the cost of carriage of the spirit from the distillery to the warehouses and the spirit must be issued to retail vendors at a uniform rate per London proof gallon and at such fixed strengths as may be prescribed from time to time by Government.

7. The contractor will be required to purchase from the existing contractors at the price now current for the warehouse in which such spirit is stored the spirit in stock at the warehouses, but he shall not be bound to take over a quantity in excess of the probable requirements for fourteen days. The contractor must deposit not later than 21st March 1916 in each warehouse stock of spirit from his own distillery, equivalent to the probable requirements for one month.

8. The spirit must have been made in the contractor's own distillery in India.

9. In the case of the distillery not being situated in Bengal, the Commissioner of Excise will require satisfactory evidence that the plant is adequate to meet the total demands made upon the distillery, and he may require the contractor to instal additional stills and other accessories.

10. The contractor will be bound to provide all plant, viz., vats, pumps, pipes, etc., required for the storing, reducing and issue of liquor or, if there be any such plant belonging to the present contractor in the warehouses, he will be required to purchase such plant which is in use and in serviceable condition at a valuation made, if necessary, in accordance with paragraph 18.

11. About sixty new wooden vats, varying in capacity from 200 to 1,000 gallons, more or less, must be installed in certain warehouses by 1st March 1916, and facilities will be granted for the erection of the vats before that date. The contractor is also bound to provide such additional vats, pumps, or other appliances as the Excise Commissioner may consider necessary for the proper equipment of the warehouse or distillery.

12. Water for reduction purposes is available at or near each warehouse, but the cost of supplying and maintaining the pumps or manual labour required and of filtration, etc., must be borne by the contractor.

13. The contractor shall be bound to maintain at each warehouse such minimum daily stocks as may, from time to time, be fixed by the Commissioner of Excise.

14. The contractor must keep an agent at each warehouse and shall be responsible for reducing spirit to issue strengths and for all wastages and shrinkages.

15. In case the contract be not renewed at its expiry the contractor will be bound to allow Government the right of pre-emption of the vats, pumps, pipes, etc., at a valuation made by two valuers according to paragraph 18 and in the case of the distillery being situated in this province this clause will apply to the distillery buildings and plant.

16. Form of grant and license may be obtained from the Commissioner of Excise on application. The contractor will be bound by all the conditions entered therein and by the provisions of the Excise Act in force within the Presidency and by the rules and instructions of Government or the Excise Commissioner issued under such Act.

17. For the observance of the conditions of the contract, the contractor must execute a deed, hypothecating to Government his vats, pumps, pipes and apparatus, together with the stock of liquor in the warehouses and deposit at the time of signing the contract, Government Promissory Notes of such value as the Commissioner may direct.

18. Any valuations required will be made by two valuers—one to be selected by the Commissioner of Excise, and the other by the existing contractors. In the event of differences in the valuations, the matter will be referred to Government, whose decision will be final.

19. The Commissioner is not bound to accept the lowest or any tender.

20. Tenders, enclosed in sealed covers and marked "Bengal Spirit Contracts," will be received up to the 28th February 1915 by the Commissioner of Excise, Calcutta, to whom application in writing only may be made for further particulars.

CALCUTTA, THE 30TH NOVEMBER 1914.

RESOLUTION No. 8382A.

IN the Resolution by the Government of Bengal, No. 1311A.D., dated the 20th June 1913, it was announced that certain privileges had been sanctioned by His Majesty's Secretary of State for India, with a view to encourage officers of the Indian Services to undertake courses of legal study while on furlough with the object of being called to the Bar. Information has now been received that this scheme has been modified; and a copy of the rules detailing the concessions which it has been decided, with the sanction of the Secretary of State, to grant in modification of the original proposals, is published for general information.

2. It will be observed that members of the Executive Branch of the Provincial Civil Service have now been definitely excluded from the scheme, but any applications that may have been received by the Local Government from such officers before the 12th November 1914 will be specially considered. The bonus for reading in a barrister's chambers has been increased to £75, and it is hoped that a larger number of officers will now be induced to take advantage of this concession. It will be noticed moreover that, instead of being called to the Bar, officers will now only be required to pass the Bar Final Examination within the first fifteen years of their service in order to be admitted to the full benefits of the scheme, and provision has been made for specially deserving cases in which the fifteen-year limit might otherwise operate hardly.

ORDERED that the Resolution be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council.

J. G. CUMMING,
Chief Secy. to the Govt. of Bengal.

Rules for the assistance of Officers on leave in England who wish to prosecute their legal studies at one of the Inns of Court.

(1) These rules are applicable only to officers of the Indian Civil Service, or of the Judicial branch of the Provincial Civil Service.

(2) Any officer, to whom these rules are applicable, desiring to undertake a course of study at one of the Inns of Court while on leave in England, may apply in writing to the local Government or Administration under which he serves for a certificate of eligibility under these rules

(3) Such certificate shall not be granted unless the applicant has or will have at any time subsequent to the date of his intended admission to an Inn of Court, sufficient leave due under the ordinary rules, to enable him to present himself at the Final Examination prescribed for a call to the Bar, before he has completed the first 15 years of his service under Government.

(4) If, in the opinion of the local Government a case deserves special consideration but a certificate cannot be granted under Rule 3 the local Government may forward the application together with its recommendation to the Government of India who will decide whether or not it should be supported to the Secretary of State

(5) An officer, to whom a certificate of eligibility has been granted under Rule 3, on reporting himself for orders at the Judicial and Public Department of the India Office, and after executing a bond in the form annexed, will be entitled to the following concessions subject to the conditions set forth in the said bond:—

(*a*) An advance of all fees payable in connection with his admission to one of the Inns of Court

(*b*) A bonus of £25 for each first class obtained in any of the four examinations comprising Part I, and a bonus of £50 for a first class in the Final Examination or Part II of the examinations prescribed by the Council of Legal Education for a call to the Bar.

(*c*) A bonus of £75 in part refund of any fee actually paid to a practising Barrister in England for reading in his Chambers:

Provided that the period of reading shall not have been less than one year, inclusive of the long vacation, and that the bonus shall be payable only on production of a certificate from the said Barrister of due attention and application to study.

(6) An officer in whose favour a special recommendation has been accepted under Rule 4, on executing a similar bond and subject to similar conditions may be granted all or any of the concessions specified in Rule 5, according as the Secretary of State directs.

(7) All bonuses and advances shall be paid in England under the orders of the Secretary of State.

(8) All advances shall be recovered from the salary of the officer concerned immediately on his return to duty in India by twelve equal monthly instalments, or by instalments of one-third of his monthly salary. The necessary arrangements for the recovery of the moneys due on return of the officer to India will be made by the Accountant-General, India Office.

CALCUTTA,
The 1st December 1914.

J. R. BLACKWOOD,
Director of Agriculture, Bengal.

DEPARTMENT OF STATISTICS, INDIA.

STATEMENTS SHOWING THE QUANTITIES OF THE PRINCIPAL STAPLES IMPORTED INTO AND EXPORTED FROM CALCUTTA IN THE FIVE MONTHS OF APRIL TO AUGUST 1914.

TRADE FLUCTUATIONS.

THE following statistical tables are intended to show the trade of Calcutta in selected articles during the months of April to August 1914 by all routes, *i.e.*, by rail, road, river, canal and sea. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the District Magistrates of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

As was to be expected, the total imports of food-grains into Calcutta in the five months of April to August 1914 show a considerable decrease over corresponding period of 1913 and 1912. The total imports of rice, wheat, wheat-flour, gram and pulse and other food-grains were 14,000,000 maunds, as against 16,000,000 maunds and 24,000,000 maunds in the corresponding period of 1913 and 1912. Although trade in food-grains generally declined, trade in rice and wheat-flour showed an increase of 3,000,000 and 2,000,000 maunds, respectively, in the five months of 1914. The imports of husked rice and paddy were 9,358,000 maunds, as against 6,539,000 maunds and 9,584,000 maunds in the corresponding period of 1913 and 1912. The 24-Parganas supplied Calcutta with a little less than half of the total imports of rice from Bengal into Calcutta. It will also be observed that the imports of rice and paddy into Calcutta from districts of Bengal was 3,000,000 maunds as compared with 5,000,000 maunds from Burma. The total imports of wheat declined from 4,487,000 maunds in the five months of 1913 to 2,307,000 maunds in the same period of 1914.

There were also decreases in the imports of Indian cotton piece-goods, indigo, jute, rape and mustard, raw silk, sugar (refined and unrefined) and unmanufactured tobacco while the imports of coal and coke, raw cotton, cotton twist and yarn, gunny-bags, lac, linseed, tea and manufactured tobacco were imported into Calcutta in somewhat larger quantities. Of the Rs. 73,00,000 of Indian cotton piece-goods imported into Calcutta, Rs. 49,00,000 came from Bombay, Rs. 11,00,000 from the district of Hooghly and Rs. 4,00,000 from the Central Provinces and Berar. About Rs. 28,00,000 worth of piece-goods were imported by the Bengal-Nagpur Railway and about the same amount, by the Eastern Bengal State Railway; whereas the imports by the East Indian Railway were a little over Rs. 4,00,000.

Among the articles of import into Calcutta, jute, owing to war conditions, shows a very serious fall—an import of only 697,000 bales compared with 1,268,000 and 1,319,000 bales in 1913 and 1912. Jute was imported chiefly from Dacca (140,000 bales) followed by Faridpur with 125,000 bales, Mymensingh with 94,000 bales, and 24-Parganas and Rangpur each with about 59,000 bales. Nearly 89,000,000 gunny-bags were imported almost entirely from the districts of Hooghly and the 24-Parganas. The exports of the number of gunny-bags were 361,000,000, of which 326,000,000 went to foreign countries other than the United Kingdom, 15,000,000 to the United Kingdom, 11,000,000 to Burma and over 3,000,000 each to Bombay and Sind.

Since the outbreak of hostilities there has been a considerable decline in the exports of food-grains by sea. In the five months of April to August 1912, the exports of rice amounted to 8,142,000 maunds, wheat to 2,937,000 maunds, gram and pulse 3,232,000 maunds and other food-grains 3,738,000 maunds. In the corresponding period of 1914 the exports were: Rice 2,531,000 maunds, wheat 73,000 maunds, gram and pulse 741,000 maunds and other food-grains 69,000 maunds. In other words, for the five months of 1914 the total exports of food-grains were 3,622,000 maunds, as against 9,423,000 and 18,296,000 maunds in 1913 and 1912.

RULES UNDER THE BENGAL TENANCY ACT, 1885 (VIII OF 1885).

CHAPTER I.—GENERAL.

Supervision and control by Local Government.

1. Except where otherwise provided for by law or by these rules, all proceedings and orders of Revenue-officers, passed in the discharge of any duty imposed upon them by or under the Bengal Tenancy Act, 1885 (hereinafter referred to in these rules as "the Act"), shall be subject to the supervision and control of the Local Government; and the proceedings and orders of each Revenue-officer under the Act shall be subject to the supervision and control of the Revenue-officers to whom he may be declared by the Local Government to be, for the purposes of the Act, subordinate

Act VIII of 1885.

The Collector and the Commissioner, in whose jurisdiction operations under these rules are in progress, shall be entitled to inform themselves of the nature and progress of such operations.

Service of notice where mode not prescribed by the Act or these rules

2. Where no other mode of service of notice is prescribed by the Act or by these rules, service shall be effected in the manner prescribed for the service of summons on a defendant under the Code of Civil Procedure, if the notice is addressed to one or more persons occupying or owning the same holding or tenure; and if it is addressed to a number of persons occupying or owning different holdings or tenures in the same village, the notice shall be served in the manner prescribed for the service of summons on a defendant under the Code of Civil Procedure, *or* by proclamation and beat of drum, and by posting it, in the presence of not less than two persons, on some conspicuous place in the village, and also by fixing it up in the village office, if any, where the rent is usually paid. In the case of uninhabited villages, the posting of the notice shall be made in the nearest inhabited village.

CHAPTER II.—STAPLE FOOD-CROPS AND PRICE-LISTS.

Local areas.

3. *Section 39.*—Each Sub-division of a District shall form a local area for the purposes of sub-section (*1*) of section 39 of the Act, and the Collector shall settle the mart within the Sub-division at which prices shall be recorded.

Staple food-crops

4. Rice has been declared, and until further orders shall be deemed, to be the staple food-crop in all such local areas.

Dates for preparation of price-lists.

5. Price-lists of the staple food-crop shall be prepared on one market-day in the month, at intervals of not less than twenty days. This market-day shall be selected by the Collector, subject to the control of the Board of Revenue.

Method of determining prices

6. The price recorded shall be the prevailing retail price at which the staple food-crop was actually sold in the mart to which the price-list refers, on the day selected under rule 5.

Price-lists by whom to be prepared.

7. (*1*) Price-lists shall ordinarily be prepared by a gazetted officer not below the rank of a Sub-Deputy Collector. But in special cases, where a Sub-Deputy Collector is not available, the Collector may authorise a kanungo to prepare the lists.

(*2*) Where prices are recorded at marts other than those at the head-quarters of districts, the Collector may, with the sanction of the Commissioner, authorise a Sub-Registrar to prepare the list, on days when no gazetted officer or kanungo is available.

(*3*) One or two respectable inhabitants of the locality shall always be asked to assist in the preparation of price-lists, and the list shall be signed by at least one of them, as well as by the officer preparing it.

Record to be kept by officer preparing price-lists.

8. Every officer charged with the preparation of price-lists shall keep a record showing, as far as practicable,—

(*a*) the date of his visit to the mart at which prices are to be recorded;

(*b*) the names of vendors and purchasers, the quantities sold, and the price thereof, for any sales effected in his presence.

Scrutiny and countersignature of price-lists prepared by subordinate officer

9. When price-lists are prepared at the Sadar Sub-division by an officer other than a Covenanted Deputy Collector, or at other Sub-divisions by an officer subordinate to the Sub-divisional Officer, or by a Sub-Registrar, they shall be submitted to the Covenanted Deputy Collector, or to a Deputy Collector specially nominated by the Collector for the purpose, or to the Sub-divisional Officer, as the case may be. Such officer shall scrutinize the lists; he may call for explanations and cause errors to be corrected, and, having satisfied himself of the accuracy of the lists, he shall countersign them.

Publication of price-lists

10. The price-lists shall be published at the marts to which they respectively refer, at the collectorate or sub-divisional office, and at every police-station and munsifi in the local area.

Submission of price-lists to Board

11. After the expiry of one month from the date of publication in the manner prescribed in rule 10, the price-lists shall be submitted to the Board of Revenue with any objections made to them, and with the opinions of the officers who prepared and countersigned them, and of the Collector, on such objections.

CHAPTER III.—LANDLORDS' IMPROVEMENTS.

Application for registration of improvement to whom to be presented

12. *Section 80.*—Applications from landlords for the registration of improvements shall be made to the Collector of the district. If any such application be presented to any other Revenue-officer, he shall forward it for orders to the Collector

Verification by local inquiry

13. As far as practicable, the application shall be in Form I appended to these rules. The Collector shall either verify the application personally or shall depute a Revenue-officer, not below the rank of Sub-Deputy Collector, to make the verification. In all cases the verification shall be by local inquiry.

Publication of local inquiry

14. Before holding a local inquiry under rule 13, the Revenue-officer shall prepare a proclamation, giving general notice to the tenants of every village concerned of his proposed local inquiry and of the date thereof. He shall cause such proclamation to be published by beat of drum in every such village and he shall cause a copy of the proclamation, together with a copy of the landlord's application, to be fixed up, in the presence of not less than two persons, in some conspicuous place of every such village. The expense of such publication shall be borne by the applicant for registration.

Record of local inquiry

15. The Revenue-officer who makes a local inquiry under rule 13 shall ascertain whether the work in question was carried out and, if so, at what time, at whose expense, and at what cost; whether the work is an improvement as defined in section 76, sub-section (*2*), of the Act, and was lawfully made by the landlord, and, if the improvement comes under clause (*e*) of that sub-section, whether enhanced rent is already being paid for the original improvement; and what tenants have been benefited thereby and to what extent. The Revenue-officer shall embody in a proceeding the result of his local inquiry. When an officer other than the Collector has made the local inquiry, he shall submit the proceeding to the Collector.

Orders by Collector on local inquiry

16. The Collector, after considering the proceeding of the local inquiry and after holding such further inquiry as he thinks necessary, shall pass an order directing or refusing the registration of the landlord's improvement; and if he directs registration, he shall record clearly whether it falls under clause (*e*) of section 76 (*2*) of the Act, and, if so, what enhancement of rent, if any, is being paid for the original improvement.

Powers of officer recording evidence as to improvement.

17. *Section 81 (1).*—Every Revenue-officer who records evidence under section 81 (*1*) of the Act shall exercise all the powers which are exercised by a Civil Court in the trial of suits, and shall be guided by the provisions of rules 5 and 8 of Order XVIII of the Code of Civil Procedure (Act V of 1908).

CHAPTER IV.—RECORD OF PROPRIETOR'S PRIVATE LANDS.

Application for record of proprietor's private land to whom to be made

18. *Section 118.*—Applications under section 118 of the Act shall be made to the Collector of the district. If any such applications be presented to any other Revenue-officer, he shall forward it for orders to the Collector.

Signature of, and particulars to be contained in, application

19. The application shall be signed by the party making it, and shall contain the following particulars, so far as the applicant is able to furnish them :—

(*a*) the name, tauzi number, and Government revenue of the estate;
(*b*) the names of the registered proprietors, and the share held by each;
(*c*) the specification of each plot of land referred to in the application, showing the village in which it is situated and the area and boundaries of each plot, if known;
(*d*) the names of the tenants (if any) in occupation of each such plot; and
(*e*) the grounds of the application.

Inquiry on receipt of application

20. On receipt of the application, the Collector shall make such inquiry as he may think fit by examining the applicant or his agent, and may call for further particulars before ordering further proceedings. If the Collector directs that further proceedings be taken, he may transfer the application for inquiry and report to any Revenue-officer subordinate to him.

Measurement of lands, where necessary, and deposit of cost thereof

21. If the area of the lands has not been already ascertained by measurement made by competent agency under the authority of Government, or if for sufficient reason a further measurement is considered desirable, the Collector shall order that the lands be measured and shall estimate the cost of measurement, and shall require the applicant to deposit the amount either at once or in such instalments as he may deem fit.

Record of proceeding.

22. If the Collector determines that the land or any portion thereof is proprietor's private land within the meaning of section 120 of the Act, he shall record a proceeding to that effect and shall attach thereto a map of the land as ascertained by measurement.

Rules 41–48 to apply to officers acting under Chapter XI of the Act

23. Rules 41–48 relating to Revenue-officers acting under Chapter X of the Act, shall apply *mutatis mutandis* in the case of Revenue-officers acting under Chapter XI of the Act.

25. (*2*) Where there is more than one landlord, and no common agent or manager has been appointed, a notice shall be served on each joint-landlord.

26. (*1*) In each case under rule 25, the notice shall be forwarded by post, in a letter registered under Chapter VI of the Indian Post Office Act, 1898 (VI of 1898), and an acknowledgment obtained.

(*2*) For the service of every such notice a process-fee of eight annas shall be levied, provided that where this fee is insufficient to cover the postal charges and the cost of obtaining an acknowledgment, a fee equal to the actual cost incurred shall be levied.

Transmission of landlord's fee by money-order.

27. In the cases mentioned in rule 25 (*1*) the landlord's fee shall be transmitted by money-order to the sole landlord or his agent, or to the common agent or manager, as the case may be, at the time when the notice is issued. (*2*) Every application under section 101 (*2*) (*a*) shall specify—

(*a*) whether the applicant is a landlord or tenant;

(*b*) the local area, estate, tenure or part thereof for which the application is made;

(*c*) the interest of the applicant in the lands of the local area, estate, tenure or part thereof.

(3) Every application under section 103 shall specify—

(*a*) the status of the applicant, viz., whether he is a proprietor or a tenure-holder or a raiyat;

(*b*) the particulars specified in section 102 of the Act, in respect of which the application is made; and

(*c*) the number of tenants occupying the estate or tenure or part thereof, in respect of which the application is made, the total rent payable by them at the time, and the estimated area covered by the application (so far as the applicant is able to give these particulars).

If the amount deposited proves insufficient to cover such cost, the applicant shall, when required by the Collector, deposit from time to time such further sums as the Collector may think necessary for the completion of the proceedings. If he shall fail to do so, the proceedings may be stopped and the order allowing the application cancelled.

Procedure for making survey and preparing record-of-rights, &c.

50. (1) When an order has been made under section 101 (1) or section 101(2) of the Act directing that a survey shall be made and a record-of-rights prepared by a Revenue-officer in respect of the lands of any local area, estate or tenure or part thereof, the survey shall be made and the record-of-rights prepared in the manner described in the following rules (in this Part and in Part III of this Chapter) and by the following processes, namely :—

(*i*) Traverse survey.

(*ii*) Cadastral survey.

(*iii*) Erection of boundary marks.

(*iv*) Preliminary record-writing (or *khanapuri*).

(*v*) Local explanation (or *Bujharat*).

(*vi*) Attestation.

(*vii*) Publication of the draft record.

(*viii*) Disposal of objections under section 103A.

(*ix*) Preparation of the settlement rent-roll, in cases in which a settlement of revenue is being or is about to be made.

(*x*) Preparation of the final record.

(*xi*) Publication of the final record.

(*xii*) Distribution of the final record and of printed maps; and recovery of costs where ordered under section 114.

(*xiii*) Settlement of fair rents under sections 105 and 105A.

(*xiv*) Trial of suits under section 106:

Provided that stage (*v*),—local explanation,—may be omitted with the approval of the Director of Land Records.

(2) A Revenue-officer who has been appointed with the additional designation of "Settlement Officer" may, at any time before the publication of the final record, direct that any portion of the proceedings in respect of

thelands of any local area, estate or tenure or part thereof, shall be cancelled and that the proceedings shall be carried out *de novo* from such stage as he may direct.

(*3*) When an order has been made under section 103 directing that all or any of the particulars specified in section 102 shall be ascertained and recorded with respect to any estate or tenure or part thereof, the Revenue-officer shall proceed in accordance with the following rules (in this Part and in Part III of this Chapter), so far as they may be applicable.

51. *Traverse Survey.*—The cadastral survey of the notified area shall be based upon a traverse survey, and such traverse shall ordinarily be carried out by theodolite observations. If possible, the traverse survey shall be connected with one or more points which have been fixed by previous surveys.

52. *Cadastral Survey.*—(*1*) In the course of proceedings under section 101 of the Act, a large-scale map showing roads, rivers, railways and other physical features of the country, as well as homesteads and other fields, shall be prepared for each village contemplated by section 115A of the Act as the unit of survey and record.

(*2*) When the area contained within the external boundaries of the village maps of the previous survey contemplated by section 115A is unsuitable as the unit of survey and record, or, if there has been no such previous survey, the Settlement Officer shall, after ascertaining, as far as possible, the opinions of the landlords and tenants concerned, submit his proposals for the determination of the area to be adopted as the unit of record and survey to the Board of Revenue through the controlling officers to whom he is subordinate. That unit shall, if sanctioned by the Board of Revenue, be adopted in framing the record-of-rights, but shall not be deemed to constitute a village within the meaning of the Act until a notification has been issued under section 3 (10) (*b*). The Board of Revenue shall submit a copy of its order in each case to the Local Government for the issue of the notification.

53. *Erection of Boundary Marks.*—Boundary marks of a permanent nature shall ordinarily be erected at every point where the boundaries of three villages meet, and may also be erected at any other points where this is necessary, in the opinion of the Revenue-officer, for the definition of any boundary.

54. *Preliminary Record-writing.*—At this and the two following stages the draft record shall be prepared. The draft record shall consist of statements of rights which are hereinafter styled the *khatians*. There shall ordinarily be a separate *khatian* for each person interested, or each group of persons jointly interested, in the land, whether as proprietor, tenure-holder, raiyat, under-raiyat or occupant, and each *khatian* shall show the rights and liabilities of each person or group of persons according to the particular which have been specified in the notification under section 101. At this stage all such particulars shall find entry, with the exception that no entry shall be made as to the revenue, rent or cess, the class to which the tenant belongs, or the special conditions and incidents of the tenancy. At this stage there shall also be prepared a field-index or *khasra* arranged according to the serial numbers of the fields in the village. This field-index shall not form part of the draft record. Disputes regarding the ownership of land, or the ownership of any interest in land, shall be decided by a Revenue-officer or a kanungo in a summary manner and on the basis of actual possession.

55. *Local Explanation.*—When the areas of the fields have been extracted and entered in the preliminary record, a copy of each *khatian* shall be made over by a Revenue-officer or a kanungo to the person or body of joint persons in whose names the *khatian* has been opened, or to their representatives. Each *khatian* shall then be examined on the ground, with reference to the village map, by a Revenue-officer or a kanungo, and shall be explained to the person or persons concerned, or their representatives, if present. The Revenue-officer or kanungo shall make such corrections as are necessary in the map, in the draft record, and in the copies of the *khatians* which have been distributed, if they can be produced for this purpose. At this stage entries of the rent which is payable according to the statement of the landlord and according to the statement of the tenant shall be made in the draft *khatians* of the tenants and in such copies as are produced; but the other particulars which were omitted at the stage of preliminary record-writing shall be deferred until the stage of attestation.

56. *Attestation.*—This stage of the operations shall be taken up after the landlords and tenants have been allowed a sufficient interval to study their copies of the *khatians*. The attestation of each village shall be taken up at a convenient place in or near the village. Before attestation begins, a proclamation shall be published in the village giving due notice to the landlords and tenants and calling on them to appear before the Revenue-officer on the date fixed, bringing with them their copies of the *khatians*. As each person appears before him the Revenue-officer shall examine his *khatian*, read out all the important entries, make corrections where required, and see that the *khatian* is complete in all particulars. Disputes regarding the ownership of land, or the ownership of any interest in land, shall be decided by the Revenue-officer in a summary manner and on the basis of actual possession. In the *khatian* of each proprietor or group of proprietors he shall enter with his own hand the revenue payable to Government. In the *khatian* of each tenant or group of tenants he shall enter with his own hand the class to which the tenant or group of tenants belongs, the special conditions and incidents (if any) of the tenancy and the rent lawfully payable or deliverable to each landlord or group of landlords. In the *khatian* of each cultivating raiyat as defined in the Cess Act, the Revenue-officer shall, and in the *khatian* of each tenure-holder as defined therein, the Revenue-officer shall, as far as possible, record the cess lawfully payable to each landlord or group of landlords. The Revenue-officer shall then sign and date the office copy of the *khatian*, and if the copy of the *khatian*, which was given to the person or persons concerned, is produced, the Revenue-officer shall see that it corresponds with the office copy as attested. When the Revenue-officer has completed the attestation of all the *khatians* of a village, he shall draw up a formal proceeding to this effect. Ben Act IX of 1880.

57. *Publication of the Draft Record.*—The Revenue-officer shall publish the draft record-of-rights by placing it for public inspection, free of charge, during a period of not less than one month, at such convenient place as he may determine. A proclamation shall previously be published in each village, informing the landlords and tenants of the place at which the draft record of that village will be open to public inspection, the period during which it will be open to such inspection, and the last date on which objections may be filed. Notwithstanding anything contained in the proclamation, the Revenue-officer may extend the period during which the draft record will be open to inspection and during which objections may be filed.

58. *Objections under section 103A.*—(*1*) Blank forms of objection shall be supplied free of charge and objections shall, as far as practicable, be made on such forms. Along with the original objection, the objector shall file a copy or copies for service on all other persons who, in the opinion of the Revenue-officer, are materially interested in the case. The Revenue-officer shall issue notices informing the objector and all other persons so interested of the date and place fixed for the hearing of the objection, and with each notice to a person other than the objector he shall forward a copy of the objection. Objections regarding the ownership of land, or the ownership of any interest in land, shall be decided by the Revenue-officer on the basis of actual possession. The record shall contain the names of the witnesses examined and an abstract of the reasons for the decision. When a Revenue-officer directs that a change shall be made in the rent recorded as payable by any tenant he shall direct that a corresponding change shall be made in the cess, if any, recorded as payable by such tenant. Objections shall not be disposed of in the absence of any of the parties materially interested, or their representatives, unless the Revenue-officer be satisfied, for reasons to be recorded in writing, that the notice was duly served on the person concerned.

(*2*) Whenever the Revenue-officer has been unable, before the publication of the draft record, to enter the cess payable by all or any of the tenure-holders in any local area, and whenever, owing to a revaluation duly made after the publication of the draft record, there have been changes in the cess lawfully payable by all or any of the tenure-holders in such local area, the Collector may, at any time before the final publication of the record, make an objection to the omissions or entries in question, and the Revenue-officer shall thereupon proceed, notwithstanding anything contained in sub-rule (*1*) of this rule, to consider the objection, and, if necessary, to make in the draft record of such local area entries or revised entries of the cess which is then lawfully payable by each tenure-holder concerned:

Provided that no such entry or revised entry shall be made unless the tenure-holder has been previously informed of the proposed entry and has been given an opportunity of objecting thereto.

59. *Preparation of a settlement rent-roll.*—Where land revenue is being, or is about to be, settled, the Revenue-officer shall prepare a rent-roll for each village, in accordance with the following procedure :—

(*i*) Before preparing the rent-roll the Revenue-officer shall issue a proclamation informing the landlords and tenants of the time and place at which the preparation of the rent-roll will begin. If any tenant be absent, the Revenue-officer shall make no entry in the rent-roll which would have the effect of altering the rent of that tenant until a special notice has been duly served on that tenant.

(*ii*) When the Revenue-officer is preparing the settlement rent-roll on the basis of a table of rates, he shall consult the landlord and tenants of the village regarding their own classification of the lands therein and regarding the relative capability of each class of land, according to that classification. When specifying in the table of rates the rate of rent which is fairly and equitably payable in respect of each class of land, the Revenue-officer shall specify and have regard to the rate of rent which is now being paid in respect of each class of land, and shall also have regard to the statements of the landlords and tenants as to the classification and relative capability of lands. Before settling any rent upon the application of the table of rates, the Revenue-officer shall consider the circumstances of the tenant and shall compare the total rent which he is now paying with the rent which he would pay according to the table of rates. He shall also consider whether the land held by the tenant is good or bad land of its class.

(*iii*) When determining the final entries to be made in the rent-roll, the Revenue-officer shall read out, or cause to be read out in his presence, the principal entries relating to the holding and rent of each tenant whose rent is to be settled, and shall enter in the rent-roll with his own hand the fair rent settled for each such tenant.

(*iv*) The Revenue-officer shall enter in the settlement rent-roll the cess which is payable by each tenant to his landlord after the determination of the fair rent.

(*v*) The publication of the draft table of rates, if any, and of the draft settlement rent-roll shall be carried out in the manner and for the period prescribed in the case of the publication of the draft record-of-rights.

(*vi*) Objections under section 104B (*3*) or under section 104E of the Act shall ordinarily be disposed of by the Revenue-officer, in or near the village in which the land is situated. The Revenue-officer shall record his reasons for each order on an objection. Appeals will lie against these orders to the superior Revenue authority mentioned in rule 48.

60. *Preparation of the Final Record.*—When all objections under section 103A of the Act have been disposed of, and when the settlement rent-roll, if any, has been prepared, sanctioned and incorporated with the record, and when the draft record has been corrected in accordance with the original and appellate orders on all objections, the Revenue-officer shall proceed to frame the final record. The final record shall be prepared in conformity with the draft record corrected as above, and shall consist of a series of *khatians* prepared on forms which are generally similar to the forms used for the *khatians* of the draft record. The *khasra* shall not form part of the final record. The final record shall be printed or prepared in manuscript, according as the Local Government may, by general or special order, determine.

61. *Publication of the Final Record.*—The Revenue-officer shall publish the final record-of-rights by placing it for public inspection free of charge, during a period of not less than one month, at such convenient place as he may determine. A proclamation shall previously be published in each village, informing the landlords and tenants of the place at which the final record of that village will be open to public inspection and the period during which it will be open to such inspection.

62. *Distribution of printed maps and of copies of the Final Record.*— The maps which have been prepared under rule 52 (*1*) may be printed under the authority of the Local Government, and may be distributed to public officers, to landlords and tenants and to others, in such manner as the Local Government may, from time to time, by general or special order, direct. Copies of the final record-of-rights, or of portions thereof, shall be printed or prepared in manuscript and shall, after certification under section 76 of the Indian Evidence Act, be distributed to public officers, to landlords and tenants and to others, in such manner as the Local Government may, from time to time, by general or special order, direct. The printed maps and the copies of the record or of portions thereof, which are distributed under this rule to persons other than public officers shall be distributed free or on payment, according as, in the case of each local area, the Local Government may direct. When payment is required the sums so received shall ordinarily be adjusted against the expenses incurred on account of survey and settlement, should the account of those expenses still be open. I of 1872

PART III.

PROCEDURE AFTER FINAL PUBLICATION.

Settlement of fair rents under Sections 105 and 105A.

63. (*1*) When the landlord or tenant applies for the settlement of a fair rent, he shall be considered as plaintiff and the opposite party as defendant. The proceedings shall be dealt with as suits and, subject to the directions contained in this rule, the Revenue-officer shall adopt, as far as it is applicable, the procedure laid down in the Code of Civil Procedure for the trial of suits.

(*2*) When the estate or tenure is managed by the Court of Wards or by a manager appointed by the District Judge under section 95 of the Act and a settlement of revenue is not being or is not about to be made, the procedure laid down in this rule for recording and settling rents shall be followed, the manager of the estate or the tenure being regarded as the landlord.

(*3*) When a landlord or tenant applies for the settlement of fair rent notice shall be served on every person interested in the application, together with a copy of the application, or extract therefrom, or summary thereof, so far as the application concerns such persons.

(*4*) With the consent of the Revenue-officer, any number of tenants occupying land under the same landlord in the same village may make a joint application for the settlement of rent, or may be joined as defendants in the same proceedings on a similar application by the landlord :

Provided that, if at any time it appears to the Revenue-officer that the question between any two of the parties, of whom one is so joined with others, cannot conveniently be so jointly tried, he may order a separate trial to be held of that question, or he may pass such order, in accordance with the Code of Civil Procedure, for the joint or separate disposal of the application, as he may think fit.

(*5*) On the date fixed for the settlement of fair rents, or any subsequent date to which the proceedings may be adjourned, the Revenue-officer shall read aloud, or cause to be read aloud in his presence, the name of each tenant whose rent has to be settled, the area of his tenancy, and the existing rent, and shall then proceed to settle a fair rent under the provisions of section 105 of the Act.

(*6*) When a landlord or tenant does not attend, after due service of notice has been proved, the procedure may be *ex parte*.

(*7*) Where a landlord or a tenant appears and the fair rent is not settled under sub-section (5) or sub-section (6) of section 105 of the Act, that is, by the acceptance by the parties of a rent proposed by the Revenue-officer, or by compromise, the Revenue-officer shall record evidence in the manner prescribed in clause (*f*) of section 148 of the Act for the trial of rent suits, and shall settle a fair and equitable rent according to law :

Provided that in important cases the Revenue-officer may, in his discretion, record evidence at length.

(8) When a fair rent has been settled under these rules, it shall be entered in the *khatian* as the rent payable in respect of the tenancy from the date prescribed by section 110 of the Act.

(9) It shall not be necessary for a Revenue-officer to draw up a separate decree with regard to the fair rent settled; but the entry made in his decision or schedule attached thereto with regard to the fair rent settled shall be held to be a decree.

Draft Notification.

No. Marine.—In exercise of the powers conferred by section 5 of the Indian Explosives Act, 1884, and with the previous sanction of the Governor-General in Council, the Governor in Council of the Presidency of Fort William in Bengal is pleased to make the following revised rules to regulate the transport and importation of explosives, other than those mentioned in section 14 of the Act, in the Port of Calcutta, in supersession of the rules previously made.

These rules are supplementary to the revised rules relating to the transport and importation of explosives made by the Governor-General in Council and published under Government of India, Commerce and Industry Department Notification No. 4013-33, dated the 6th June 1914.

Rules to regulate the transport and importation of explosives in the Port of Calcutta.

[The additions and alterations proposed to be made are shown in italics.]

N.B.—"Explosive," as defined in section 4, Act IV of 1884, and as used in these rules—

(*a*) means gunpowder, nitro-glycerine, dynamite, gun-cotton, blasting powders, fulminate of mercury or of other metals, coloured fires, and every other substance, whether similar to those above mentioned or not, used or manufactured with a view to produce a practical effect by explosion or a pyrotechnic effect; and

(*b*) includes fog-signals, fireworks, fuzes, rockets, percussion caps, detonators, cartridges, ammunition of all descriptions and every adaptation or preparation of an explosive as above defined. It also includes any dangerous substance which may have been ordered by the Governor-General in Council, under section 17 of the Indian Explosives Act, 1884, to be deemed an explosive.

1. Except as is hereinafter provided for, no vessel shall have on board, within the limits of the port, any explosives, as defined in section 4, Act IV of 1884, except two storm or danger signals, six smaller lights of the same description, 24 blue lights, 24 rockets, *or 24 socket signals with friction tubes*, 24 detonating signals with friction tubes, or in lieu thereof 24 one-pound charges of gunpowder for use in a gun *together with a small box of friction tubes and a flask of priming powder*, 24 private signals of any Company, and 12 red lights for each boat *and life raft* carried under the statutory rules for life-saving appliances (made by the Board of Trade under section 427 of the Merchant Shipping Act, 1894), and a reasonable quantity of safety cartridges for the equipment of the vessel or for the personal use of the officers on board the ship, provided that the quantities held by them are declared in the prescribed Customs Forms A and B respectively, or, in the case of foreign vessel, in the Stores List of such vessel. Detonators and their friction tubes to be stored separately. All explosives which vessels are by this rule permitted to keep on board in port shall be stored in all cases in separate, detached and completely

enclosed magazines for each description of signals. The magazines should be kept in a house on deck and stowed or ranged as far apart as possible, so that in the event of fire they can be removed or thrown overboard.

2. All inward-bound vessels carrying explosives in excess of the quantity prescribed by rule 1, are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the port, which shall have on board any explosives in contravention of these rules, shall be liable to a fine which may extend to the sum mentioned in clause (*a*) or clause (*b*), as the case may be, of the proviso to section 5 of the Indian Explosives Act, 1884.

3. Explosives of classes 1, 6 and 7, as laid down in the rules issued under Government of India, Commerce and Industry Department Notification *No. 4013—33, dated the 6th June 1914*, that is to say, gunpowder, ammunition and fireworks in excess of the quantity prescribed in rules 1 and 2, shall be landed and deposited in the magazine at Moyapore.

4. For the convenience of vessels having ship's gunpowder, *ammunition and fireworks* on board, a properly constructed powder-boat will be always in attendance off the magazine for landing and shipping *these explosives*. No charge will be made for the use of the boat for landing ship's *explosives*, but the responsibility of the keeper in respect of the ship's *explosives* shall not commence until *they are* landed on the bank, and shall cease as soon as *they are* shipped on board the boat. Every precaution will be taken to insure the safety of the *explosives* while in the boat, but the landing and shipping shall be at the risk of the vessel.

5. Vessels bringing consignments of trade explosives shall be allowed the use of the magazine boat; but should passing vessels require the use of the boat to put out or take in ship's *explosives*, such vessels shall be accommodated before the boat can be used to discharge explosives brought as cargo. The landing of *trade explosives*, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

6. Explosives specified in the first division, class 6 of the rules published under Government of India, Commerce and Industry Department Notification *No. 4013—33, dated the 6th June 1914*, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, and percussion caps brought as part of a general cargo and which have been placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' bye-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction, and contains an explosive in such quantity, that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

7. In order to avoid unnecessary detention, Masters of vessels requiring the use of the powder-boat shall hoist a flag at the fore-topmast head on coming in sight of the magazine, as a signal to the keeper to have the boat and coolies in attendance.

8. Masters of vessels shall mark the names of their respective vessels on the barrels and packages of ship's *explosives* previously to their being landed; if not marked, they shall not be received by the magazine boat.

9. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when artificial lights are required to be used, and no explosives shall be landed, received into, or delivered from, the magazine when artificial lights are required to be used.

10. The magazine-keeper shall give to the Master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such Master for the re-delivery of such packages.

11. Before entering the limits of the port, the Master of every vessel having explosives on board shall make and sign a declaration in writing that to his knowledge and belief there is not on board any explosive exceeding the quantity prescribed in these rules.

12. A clerk shall be always in attendance in the powder-boat, and shall receive from the Master the declaration specified in the foregoing rule.

13. If any vessel shall be prevented, by stress of weather or by being in distress, from landing or depositing such explosives in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matteabrooj Ghât, and the Master of such vessel shall forthwith give notice to the Harbour Master of his having such explosives on board, and shall obey the Harbour Master's directions relating to the same.

14. Masters of vessels, outward bound, who may require ship's *explosives* for their outward voyage, shall not take such *explosives* on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding that named and sanctioned in rule 1.

15. Masters of vessels who have deposited ship's *explosives* at the magazine shall inform the Harbour Master of the date on which the vessel will pass the magazine outward bound, and on receipt of this information, orders shall be forwarded to the keeper to place the *explosives* in the boat, and send it off in such time as to avoid any detention of the outward-bound vessel. Before taking the *explosives* on board, the receipt granted by the magazine-keeper shall be given up

16. Boats shall be permitted to take on board at the Moyapore Magazine and bring as far as *Prinsep's* Ghât, under cover of passes to be granted by the Commissioner of Police and the Port Commissioners, 50lbs. of trade gunpowder, the property of dealers and consignees.

17. Delivery of trade powder into boats at the Moyapore Magazine for conveyance to Calcutta shall only be granted upon orders issued by the Port Commissioners.

18. No boat containing powder, under the provisions of rules 16 and 17, shall be allowed to proceed above *Prinsep's* Ghât. All such powder shall be landed at *Prinsep's* Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Port Commissioners.

19. No smoking, and no fire or light of any description, except the red lamps between sunset and sunrise, shall be permitted on board of any boat having explosives on board.

20. Masters of vessels having on board explosives belonging to the following classes, as laid down in the rules prescribed in the notification of the Government of India, Commerce and Industry Department *No. 4013—33, dated the 6th June 1914*, shall make their own arrangements for the discharge of the explosives:—

Class 2.—Nitrate mixture.	Class 4.—Chlorate mixture.
„ 3.—Nitro compound.	„ 5.—Fulminate.

21. Explosives of the classes specified in the foregoing rule shall not be landed at the Moyapore Magazine. They shall only be allowed to enter and pass through the port under the supervision of the Port Police and subject to such restrictions as may, from time to time, be ordered by the Commissioner of Police and the Port Commissioners, in addition to the restrictions laid down in the rules promulgated by the Government of India, Commerce and Industry Department Notification *No. 4013—33, dated the 6th June 1914*. But they may be landed at Diamond Harbour and conveyed thence by rail to Durgapur: provided they are taken direct from the vessel to wagons: or if there be no wagons ready to receive them, arrangements are made for their safe custody after leaving the vessel.

22. Boats containing explosives of the classes specified in the two foregoing rules may anchor at Diamond Harbour if it is intended to land the explosives at that place, but shall, in no case, anchor within port limits, or be made fast at any part of the river bank or alongside any vessel, stage, jetty, or pier within the limits of the port. Such boats, if allowed to enter port, shall proceed direct through the port to the place licensed by the Local Government for the landing and storage of the explosives.

The following notification, issued by the Government of India in the Legislative Department, published in the *Gazette of India* dated the 5th December 1914, is republished for general information.

J. G. CUMMING,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

Delhi, the 30th November 1914.

An Ordinance to provide power to obtain information as to stocks of articles of commerce and to enable possession to be taken of stocks of articles of commerce unreasonably withheld from the market.

ORDINANCE No. IX OF 1914.

WHEREAS an emergency has arisen which makes it necessary to provide power to obtain information as to stocks of articles of commerce and to enable possession to be taken of stocks of articles of commerce unreasonably withheld from the market.

Now therefore, in exercise of the power conferred by section 23 of the Indian Councils Act, 1861, the Governor General is pleased to make and promulgate the following Ordinance.

Short title and extent

1. (*1*) This Ordinance may be called the Articles of Commerce Ordinance, 1914.

(*2*) It extends to the whole of British India including British Baluchistan, the Sonthal Parganas and the district of Angul.

Definitions.

2. In this Ordinance unless there is anything repugnant in the subject or context,

(*a*) "owner" in relation to any article of commerce includes any person who as agent or otherwise has power to sell the article;

(*b*) "prescribed" means prescribed by rules made under this Ordinance.

Power to call for returns of articles of commerce.

3. (*1*) The Governor General in Council, as regards the whole or any part of British India, and each Local Government, as regards the whole or any part of the province, may, by general or special order, require any person or class of persons to make a

return, giving such particulars as may be required in the order, of any article of commerce of which he or any person belonging to such class is the owner, and to submit such return to such authority, within such time, as may be specified in the order.

(*2*) The Governor General in Council, or the Local Government, may, for the purpose of testing the accuracy of any return made in accordance with the provisions of sub-section (*1*), or of obtaining information in case of a failure to make a return, empower, by general or special order, any person to enter and search any place in which such person has reason to believe that there are kept or stored any articles which have been or were required to be included in the return and of which the person making or required to make the return is or was the owner, and a person so empowered may take such measures as he thinks necessary for testing the accuracy of the return or for obtaining such information.

Returns or information not to be disclosed.

4. No individual return or part of a return made, and no information obtained in accordance with the provisions of section 3 shall be published or disclosed except for the purposes of a prosecution under this Ordinance.

Penalties.

5. Whoever—

(*a*) intentionally omits to make a return when so required by an order under section 3; or

(*b*) makes or causes to be made any return which he knows or believes to be false or does not believe to be true; or

(*c*) obstructs or impedes any person empowered under section 3, sub-section (*2*), in the exercise of any of his powers under that sub-section; or

(*d*) refuses to answer or gives an answer which he knows or believes to be false or does not believe to be true to any question necessary for obtaining the information required to be furnished under this Ordinance,

shall be punishable with imprisonment of either description for a term which may extend to six months, or with fine which may extend to rupees one thousand, or with both.

Power to declare that article of commerce is unreasonably withheld from the market.

6. (*1*) If the Governor General in Council or the Local Government is of opinion that any article of commerce is being unreasonably withheld from the market, the Governor General in Council or the Local Government may, by notification in the *Gazette of India* or the local official Gazette, as the case may be, make a declaration to that effect.

(*2*) The power conferred by sub-section (*1*) may be exercised in respect of any article of commerce generally or any class of such article or any particular supplies thereof and may be exercised by the Governor General in Council in respect of the whole or any part of British India and by the Local Government in respect of the whole or any part of the province.

(*3*) Nothing in this Ordinance shall be construed as preventing the authorities mentioned in this section from exercising the power conferred thereby without having first obtained or endeavoured to obtain returns under this Ordinance.

Power to take possession of stocks of article unreasonably withheld.

7. On the issue of a notification under section 6, any person empowered by the Governor General in Council or by the Local Government, by general or special order in that behalf, may take possession of any supplies of the article so notified which may be found within any area to which such notification extends, on paying the owner such compensation as may be determined by agreement between the person so empowered and the owner of such supplies or, in default of agreement, on payment or tender of payment of such compensation as the person so empowered considers reasonable.

Appeal by owner of supplies.

8. (*1*) If the owner of any supplies taken possession of in accordance with the provisions of section 7 is dissatisfied with the compensation paid or tendered to him in default of agreement, such owner, notwithstanding the fact that he may have accepted payment, may, within fourteen days from the date of such payment or tender of payment or within such longer period as may be prescribed, appeal to the prescribed authority.

(*2*) The prescribed authority shall consist of at least three persons, one of whom at least shall have commercial experience.

(*3*) The prescribed authority in deciding the appeal shall have regard to all the circumstances of the case, and may either enhance or reduce the compensation determined as reasonable by the person taking possession of the supplies. If such authority enhances

the compensation any sum due in accordance with the award shall be paid to the owner of the supplies. If such authority reduces the compensation any excess which the owner of the supplies has received shall be recoverable from such owner as if it were an arrear of land revenue.

9. (*1*) The Governor General in Council or the Local Government may make rules for the purpose of carrying into effect the provisions of this Ordinance.

Rule-making power.

(*2*) In particular and without prejudice to the generality of the foregoing power such rules may provide for—

(*a*) the forms in which any return required by this Ordinance shall be submitted;

(*b*) subject to the provisions of section 8, sub-section (*2*), the constitution of an authority for the hearing of appeals under section 8, and the procedure to be followed by such authority and by persons appealing to such authority; and

(*c*) any other purpose ancillary to this Ordinance.

(*3*) All rules made under this section shall have effect as if enacted in this Ordinance.

10. No Court shall call into question any order or award made under this Ordinance; and no suit, prosecution or other legal proceeding shall lie against any person for anything which is, in good faith, done or intended to be done under this Ordinance.

HISTORY.

(To be notified hereafter.)

GEOGRAPHY.

The following books are recommended as indicating the methods of study as well as the standard of knowledge required:—

A. J. Herbertson ... ... The Oxford Geographies, Vol. II.

The World with fuller treatment of India (Longman's Geographical Series for India Book II).

J. F. Unstead ... ... The Practical Geography, Parts I and II.

The following books are recommended for the use of teachers:—

Blanford ... ... The Rudiments of Physical Geography for the use of Indian Schools.

Patterson ... ... Geography of India, Parts I and II.

The following book is recommended for the use of teachers in connection with the teaching of "Sand Modelling" in the lower classes of schools:—

A. E. Frye ... ... The Child and Nature.

Every school that intends to undertake instruction in Geography for the Matriculation Examination is required to possess the apparatus mentioned in the following list:—

I.—The total cost need not exceed Rs. 65—

1. A measuring tape.
2. A magnetic compass.
3. Squared paper and tracing paper.
4. Clay, dry sand, paper pulp for modelling.
5. A globe, not less than 14 inches in diameter, with writing surface, and with line of latitude and longitude, and outlines, only of the landmasses, marked upon it.
6. A map of the school locality on a scale of 4" or 6"=1 mile.
7. A map of the district in which the school is situated on the scale 1"=1 mile.
8. A coloured map of the Province.
9. A coloured political map of India.
10. A physical map of India.
11. A relief map of India.
12. A map of the world on Mollweide's equal area projection and a map of Asia.

It is essential that the students should be provided with atlases, or with the necessary hand-maps. Maps for school work should not contain too much detail, or be crowded with names.

II.—The following additional equipment is recommended when it can be provided, but that lack of it is not to be considered as a barthe recognition of the school in Geography:—

1. A thermometer.
2. A mercury barometer.
3. A rain-gauge.
4. A small collection of typical rocks, in particular those of the Province and of India.
5. A small museum of typical products.
6. A good standard atlas.
7. Geographical pictures.

The attention of teachers is requested to the raised maps of Bengal and Eastern Bengal and Assam made of paper pulp prepared by Babu Kailas Chandra Datta, Head Pandit, Habiganj Government Girl's School, Sylhet, and sold for R7 and R5 respectively.

(2) Globes of all kinds are made by George Philip and Son, London, W. and A. K. Johnston, London, and Messrs. Ruddiman Johnston, London.

Small hand Globes of German make can be obtained through the Calcutta School Book Society for about a rupee each.

(3) The "Comparative" series of large wall maps of the continents published by George Philip and Son is good and up to date; so also are the Orographical wall maps published by Edward Stanford. Messrs. Ruddiman Johnston publish a series of smaller wall maps which includes maps of India illustrating various distributions.

Messrs. Nelson's wall atlases are good, Mr. S. B. Chatterjee publishes District Maps; also ordinary and relief maps of the Province.

Babu L. M. Basu, the drawing master of the Dacca Collegiate School, has published good relief maps of Eastern Bengal and Assam and of India.

The Vidal-Lablache French wall maps on strong card board, named on one side, and the same map without names on the reverse, published by Armand Colin, Paris, are good and cheap. They measure 46 inches by 39 inches and can be delivered in Calcutta for R4-14 each.

(4) The hand maps, coloured to indicate relief, published by the Diagram Company, West Barnes Lane, New Malden, Surrey, at one penny each. are the best of their kind.

The uncoloured half-penny maps, showing river systems and a few towns, published by the same Company, are excellent for class use.

The Autograph hand maps, with hill shading in brown, published by Edward Stanford, London, at one penny each, are very good, and are larger than the Diagram Company's hand maps. The 15 inches map of the world on Mollweide's equal area projection is specially to be commended.

(5) Wall pictures of considerable artistic merit are published by Messrs. Edward Arnold of Leeds, Messrs. Hachette of Paris, and Messrs. Hölzel of Vienna and Messrs. Longmans, Green & Co. They cost, delivered in India, from two to three rupees each.

Map lantern slides, and view slides especially prepared for geography teaching, are sold by the Diagram Company for two or three shillings each. Mr. Bartington Smith of Darjeeling also sell good picture slides of the Himalayas at R15 per dozen.

ELEMENTARY MECHANICS.

The following book is recommended :—

Sir Philip Magnus... ... Elementary Mechanics (Longmans, 1903).

The following list of apparatus is prescribed as indicating the approximate requirements of a recognised High School seeking to teach Elementary Mechanics for the Matriculation Examination :—

Plumb-line and Level.

Simple Lever (including brass slotted weights).

Roman Steelyard.

Lecture apparatus for experiments on moments.

George's New Atwood's Machine.

Stop-watch.

Glazebrooke's apparatus (to demonstrate movement of a body).

Hick's Ballistic Balance.

Compound Wheel and Axle.

4 Single Brass Pulleys.

2 „ „ „

2 Triple „ „

Weston Differential Pulley Blocks (¼ ton).

16 feet of chain at 6*d*. per foot.

Inclined Plane.

Parallelogram of Forces apparatus.

Wall Crane.

Becker's New Physical Balance.

Set of Gramme Weights (200 grams to 1 mgr.).

2 Composition-Ivory Balls.

NOTE.—The above list is not exhaustive, and much of it might be replaced by simpler forms that could probably be made far more cheaply by any clever mistry under proper supervision. In most cases, however, it will probably be found advantageous to buy such a set as indicated in the list specially for demonstration purposes, and subsequently to develop simplified duplicates, illustrating the same principles, which the boys should be given opportunity actually to experiment with on their own individual accounts or working in pairs.

(In all cases where reference is made to Chapters, Sections, Pages or Lines, thus Chapters I—IX the reference is to be understood as inclusive.)

Third Forecast of the Cotton Crops of Bengal, 1914-15.

(NOTE.—On the average of the five years ending 1912-13, the area under the cotton crop in Bengal represents some 0·2 per cent. of the total area under Cotton in India.)

Character of the season.—Cotton is cultivated only in the districts of Bankura, Midnapore, the Chittagong Hill Tracts and in the State of Hill Tippera. The weather conditions of the early variety were very favourable especially in the most important district of the Chittagong Hill Tracts. A good crop has been reaped this year. Late cotton is grown in Bankura and Midnapore. The condition of the crop is reported to be fairly good so far.

Area sown.—The total area sown with the early crop is estimated at 89,460 acres, against 84,873 acres of last year (now revised) and against the unrevised estimate of 19,098 acres reported at the corresponding period of last year. The area sown with late cotton is reported to be 1,900 acres against the same area reported last year.

Outturn.—The estimated outturn of early cotton works out to 33,821 bales, against 23,000 bales last year (now revised) and against the unrevised estimate of 19,065 bales reported at the corresponding period of last year. The outturn of late cotton amounted to 1,158 bales against the same estimate reported last year.

Second forecast of winter rice crop of Bengal 1914-15.

[*NOTE.—On the average of the five years ending 1912-13 the area under winter rice in Bengal represents some 19·8 per cent. of the total area under winter rice in British India.*]

Character of the season.—In April and May the rainfall was in excess of the normal; but the season was generally favourable for the seed-beds and the sowing of broadcasted paddy. The weather in June was exceedingly dry and this affected the growth of the young plants to some extent. Their condition was, however, improved by timely rainfall in July. In some districts, especially those in the Rajshahi Division, the rainfall was defective during the latter part of the month, and transplantation was a little late in consequence. The rainfall in August and September, though still in defect in most of the districts, was not unfavourable to the crop, although more rain would have benefited the crop greatly. There was very little rainfall in October and the effect of the drought had a very injurious effect on the paddy on high-lands; the low-land crop also suffered to some extent. On the whole the character of the weather may be considered as unfavourable. The crop is so far reported to be doing well only in the irrigated tracts and in the low-lying parts of some of the eastern districts which are subject to annual innundations.

Acreage.—According to the figures furnished by the District Officers, the area sown this year is 15,074,500 acres, against 14,539,600 acres of last year, or an increase of 534,900 acres. The increase is chiefly due to timely rainfall during the early part of the season. The normal area under the crop is returned as 16,316,400 acres.

Outturn.—From the summary of the district returns appended it will be seen that only one district; *viz.*, Faridpur, reports a normal crop; five districts, *viz.*, Khulna, Pabna, Mymensingh, Bakarganj and Noakhali report a crop between 90 and 99 per cent.; nine districts between 80 and 89 per cent.; five districts between 70 and 79 per cent.; four districts between 60 and 69 per cent.; two districts between 50 and 59 per cent.; while Malda returns as low as 45 per cent. The low outturn in these districts is chiefly attributed to the drought prevailing since the latter part of September. According to the District Officers' estimates the provincial outturn works out to 81 per cent. as compared with 92 per cent. of last year. On the basis of the normal yield of 12 maunds of clean grain per acre the provincial outturn, as worked out from District Officers' estimates, is 107,650,400 cwts. against 117,931,000 cwts. of last year.

Second Forecast of the Winter Rice Crop of Bengal, 1914-15.

District.	Estimated normal area under winter rice.	Estimated area under winter rice.		Estimated outturn as a percentage of the normal yield per unit of area.		Date by which the harvesting generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officer.
		Last year.	This year.	Last year.	This year.

	Acres.	Acres.	Acres.				
24-Parganas ...	899,700	777,700	785,100	75	75	Middle of November. Normal.	Want of October rain has been felt in all parts of the district and injury by insect-pests has also been reported from Diamond Harbour and Basirhat. Hence the falling off in the estimated outturn.
Nadia ...	136,800	124,300	134,600	83	58	Not yet begun ...	The weather has not been favourable. Much damage has been done to the crop by drought and also by flood in the Kushtea subdivision. Hence the outturn is expected to fall much below the normal.
Murshidabad ...	345,600	288,600	315,900	93	75	Not yet commenced.	The increase of a thousand acres as compared with the estimate of the first forecast is due to revision of figures in the Beldanga thana. The growth of the crop has been affected by want of rain since October. The crop has also been damaged by insect pests in Jangipur subdivision.
Jessore ...	568,100	406,100	411,400	62	87	Will commence by the end of November. Normal.	The weather has not been favourable. Some damage was done to the crop by unexpected flood in August and September and also by subsequent drought. Hence the outturn will fall below the normal.
Khulna ...	655,700	732,500	748,000	100	92	November. Normal.	The increase in area as compared with that of the first forecast is due to transplantation of the crop in certain tracts of Bagerhat and Satkhira since the submission of that forecast. The increase as compared with last year is partly due to gradual reclamation of jungle, and partly to favourable weather at that time of sowing. Want of rain by the end of September and at the beginning of October adversely affected the growth of the crop to some extent.
Burdwan ...	874,900	746,000	760,000	100	67	Not yet commenced.	Conditions have been unfavourable owing to early cessation of rainfall. It has materially reduced the probable outturn.
Birbhum ...	604,600	586,100	604,600	117	83	End of November Normal.	The damage done to the crop by continued drought is estimated at 2 annas.
Bankura ...	510,600	480,000	481,500	83	83	Not yet commenced.	The weather was favourable for some time, but the rains failed in September and October and the prospects are much below what they promised to be. Slight damage was reported to have been caused by "Vepoo" and "Gunni" insects.
Midnapore ...	1,406,000	1,112,400	1,574,900	60	85	Harvesting not yet commenced.	The weather was at first favourable, but latterly want of rain has been keenly felt. The extent of damage by drought and insect-pests is roughly estimated at 15 per cent.
Hooghly ...	276,700	240,600	246,400	84	83	Middle of November.	The weather was at first favourable, but it has not been so afterwards. The growth of the crop has been affected by drought. Hence the falling off in the outturn.
Howrah ..	125,200	99,500	103,300	67	62	Not yet commenced.	The weather has not been favourable, owing to cessation of rain since the middle of September. The growth of the crop has been retarded by the drought. The damage since the publication of the first forecast is estimated at 2 annas.
Rajshahi ...	697,000	479,700	492,000	105	75	Will commence from 1st week of December.	Increase in area, as compared with the estimate in the first forecast, is due to the revision of figures by the Subdivisional Officer, Natore. Want of rain in October has damaged the crop to a great extent.
Dinajpur ...	1,120,300	1,016,400	900,800	103	53	Not yet commenced.	The slight increase in area as compared with the estimate of the first forecast is due to further transplantation facilitated by the rainfall in September. The weather since then has not been favourable. The crop on high lands is drying up for want of rain and the prospects are very bad. Hence the outturn is expected to be much below the normal.

DISTRICT.	Estimated normal area under winter rice.	ESTIMATED AREA UNDER WINTER RICE.		ESTIMATED OUTTURN AS A PERCENTAGE OF THE NORMAL YIELD PER UNIT OF AREA.		Date by which the harvesting generally commenced this year, and whether that date was early, normal or late.	REMARKS BY DISTRICT OFFICER.
		Last year.	This year.	Last year.	This year.

	Acres.	Acres.	Acres.				
Jalpaiguri ...	851,300	492,400	408,000	85	75	Not yet commenced.	The increase of 16,000 acres as compared with the estimate in the first forecast is due to the fact that the transplantation was not finished when the first forecast was submitted. The crop has been damaged to some extent by want of timely rainfall
Darjeeling ...	65,300	36,800	36,800	100	69	Harvesting not yet commenced in the Terai, but in the hills it has commenced in places since 1st November. Early.	The weather has not been favourable on account of insufficient rainfall. Hence a low outturn is anticipated.
Rangpur ...	822,300	705,000	582,300	114	80	Not yet commenced.	The weather was not favourable during July, August and the first part of September. The rainfall during the latter part of September and in October did good to the crop.
Bogra ...	303,000	303,000	303,000	95	60	Ditto	Conditions have been very unfavourable on account of continued want of rain. The crop on high lands has dried up and even the lowland crop is damaged to some extent. Hence the outturn is anticipated to fall much below the normal.
Pabna ...	566,000	470,000	470,000	100	90	Ditto	Want of rain during September and October has adversely affected the crops on high lands. Hence the outturn is not likely to exceed 90 per cent.
Malda ...	300,000	309,000	300,000	125	45	End of October, Early.	The weather was favourable till the end of September, but it has turned unfavourable since. The growth of the crop has been retarded and about $\frac{1}{4}$th of the crop has been damaged by the drought. Hence the low outturn.
Dacca ...	633,100	587,300	595,300	73	87	Last part of November. Normal.	Rainfall in September, though not abundant, helped the growth of the crop, but at the beginning there was not a sufficiently high flood which adversely affected the cultivation to some extent. Some damage has also been done to the crop by insects in Keraniganj thana. Hence the outturn is expected to fall below the normal.
Mymensingh ...	1,126,700	962,700	958,700	88	98	.....	There has been sufficient rainfall since the submission of first forecast, which has improved the prospects. Slight damage was reported by insect pests from Netrakona. The outturn for the whole district is anticipated to be 98 per cent.
Faridpur ...	770,100	422,800	661,000	70	100	Not yet commenced.	The decrease as compared with the first forecast is due to the revision of the area in the Gopalganj subdivision. The weather has been on the whole favourable, but a little more rain would have proved beneficial to the crop.
Bakarganj ...	1,300,000	1,295,000	1,285,000	110	90	Ditto ...	Growth of the crop has been retarded by drought since October. Some damage is also reported by insects in several villages in the Galachipa and Mirganj thanas. Hence a normal yield is not expected this year.
Chittagong ...	418,400	421,800	425,000	95	80	Last week of November. Normal.	Insufficient rainfall during the last two months has adversely affected the growth of the crop.
Tippera ...	734,800	760,000	820,000	80	80	Just commenced. Normal.	Want of rain has been prejudicial to the growth of the crop. Hence the outturn has fallen below the normal.
Noakhali ...	566,900	632,500	633,000	100	90	Middle of November. Normal.	Absence of rainfall during October has injuriously affected the late transplanted paddy. Hence the falling off in the percentage outturn.
Chittagong Hill Tracts.	47,500	*51,400	38,000	90	70	Not yet commenced.	Owing to the want of rain the outturn is expected to fall below the normal.
